

# SENATORS TO DISCUSS ACTION AGAINST MEXICO

## DEMOCRATS FEAR FOR STRENGTH OF FOES

Wilson, Though Sick, Makes Plans For Talking To More Republicans

DEBATE IS RESUMED WHILE TREATY READ

Thirty-five Votes Against Ratification Without Reservations

By L. C. MARTIN.  
(United Press Staff Correspondent)

WASHINGTON, July 21.—Both at the capitol and at the White House the fight for and against the League of Nations was resumed today.

President Wilson, as soon as his physical condition permits, was preparing to confer with more Republican senators. He has seen seven so far, and it was understood three or four more would be invited to the White House tomorrow.

At the capitol senatorial debate was renewed and the foreign relations committee continued reading the treaty.

Return of Senator Hitchcock, administration leader from a week-end trip was awaited by Democratic senators, who were admitted worried over the fact that 35 senators are reported to have pledged their votes against ratification without reservations.

It was after this list of 35 had been offered President Wilson last week as proof of the strength of the senate opposition that Hitchcock issued a statement saying the treaty would be ratified without change, declaring that there are not enough votes for amendment. Democrats were to discuss the list with Hitchcock and get his advice on plans to make a concerted attack on Republicans by renewing the charge of partisanship and personal jealousy of President Wilson.

Senator Norris, Nebraska, today declined to affirm or deny a report that he had been invited to the White House and declined.

"I have nothing whatever to say about it," said Norris. "My understanding of the usual courtesy in dealings between senators and the president is that any announcement must come from the president."

### PORTLAND TELEPHONE GIRLS RESUME WORK

PORTLAND, Ore., July 21.—Normal telephone service was restored here at 8 a. m. today when the operators who have been on strike three weeks returned to their positions.

At the same time the electrical workers who have been on strike twenty days, went back to work. They voted unanimously to return.

### COURTMARTIALED MEN TO BE AIDED BY BILL

WASHINGTON, July 21.—A bill to restore to the colors, all soldiers, sailors or marines who have been court-martialed, and restoring all forfeited pay and allowances, was introduced today by Senator Chamberlain, Oregon. Court-martial involving charges recognized as felonious in civil law are excepted.

### ELEVENTH WEEK OF FORD TRIAL OPENS

MOUNT CLEMENS, Mich., July 21.—The eleventh week of the Ford million dollar libel suit against the Chicago Tribune opened here today with argument as to what testimony shall be admissible.

Ford sat with his attorneys or walked about the courtyard during the morning. It was expected he might take the stand before today's session closes.

STERLING GOES DOWN

NEW YORK, July 21.—Shortly after the opening, demand sterling sold off three cents to \$4.28, within two cents of the record low.

### Taxes Levied By Two Nations Is More Than Woman's Income

LADY DAVID BEATTY

Lady David Beatty Has to Pay \$210,000 Yearly for \$200,000

LONDON, July 21.—Lady David Beatty has a financial problem on her hands that is hard to solve. Likewise she can't see the justice in it. Briefly stated, the problem is how is she going to pay the taxes on her income when the income is less than the taxes assessed.

Here is how it comes about. Lady Beatty is a daughter of the late Marshall Field of Chicago, and gets a large income from that estate, which is taxed at the rate of 60 per cent in America. The same income is again taxed 50 per cent by Great Britain, where she resides. The result is, her income is about \$200,000 yearly and her tax amounts to \$210,000.

### ODD NEWS NOTES

CHICAGO—Next time Joe Czarnik buys a jug full he will see what's in it. He paid \$185 for his purchase, but found it had no more kick than any other water.

LOUISVILLE, Ky.—The animal trainer at the psychopathic hospital at the Zoo is looking for work. For a week no one with a three-horned gun, two-headed snake, one-armed centipede or even a curly-headed frog has shown up.

LOS ANGELES—Two weeks ago Oliver Crandall, Connecticut, O., lost his glass eye while bathing at Venice. But Neptune didn't need it. Yesterday it was tossed back ashore and a small boy returned it to Crandall.

BOSTON—A crowd of girls, forced to walk during the street car strike, gladly accepted an invitation to ride downtown in a hearse.

CLEVELAND—A bugle call sounded and Andrew Hards, a motorman, slammed on the brakes and snapped to attention. "Run over anybody?" passengers asked. "Naw; thought I was still in the army."

SAN FRANCISCO—Even camouflage can be overdone. A heap of nice fat sausages on an inbound steamer looked so toothsome that a customs inspector lifted one to admire it. Altogether they contained \$10,000 worth of opium.

SAN FRANCISCO—Mrs. Geo. Voelker wants a divorce because George was too obedient. Quarrels always ended by her telling him to leave home, she said—and one day she followed orders.

LINCOLN, Neb.—What's in a name! University Place, Neb., has a doctor by the name of R. Crook whose dental partner is named C. Lynch.

### CHILD KILLED, FIVE INJURED BY AUTOIST

SAN FRANCISCO, July 21.—Theresa Leberge, five, of San Fernando, is dead, her brother, Phillip Leberge suffered a fractured right leg and three other children were seriously hurt when an automobile driven by Leo R. Callahan crashed into a group of children late yesterday. The children had no chance to escape. Callahan was arrested on a manslaughter charge.

## ALLIES GIVE BALANCE OF PACT TERMS TO AUSTRIA

Fifteen Days Allowed for Filing Observations; All Merchant Fleet Must Be Handed Over In 3 Months.

PARIS, July 21.—The Austrians were in possession of the complete terms of their peace settlement today.

The remainder of the document—the first section of which was handed to them June 2—was given to their representatives at St. Germain yesterday by Paul Dutasta, secretary of the peace conference, with an utter lack of ceremony. They have fifteen days in which to file additional observation. The principal terms of the treaty are:

Austria must accept responsibility for loss and damage to the Allies through a war of aggression.

She must surrender all of her merchant fleet and a fifth of her river fleet within three months.

She must make reparation within thirty years for damages to Allied civilians and their property.

She must abolish conscription and reduce her army to thirty thousand.

She must accept her share of the former dual monarchy's pre-war debt, which is divided among the nations which formerly constituted the empire.

She must reduce all her armaments and surrender all surplus.

She must renounce the Bucharest and Brest-Litovsk treaties.

She must turn over all her cables to the Allies.

Indemnities to be Fixed

The definite announcement of indemnities will be determined by a special session of the Allied reparations, upon which there will be an American representation. Austria will be required to pay "a reasonable sum" within the period extending from the present to May 1, 1921.

Before May 11 of that year the commission will appraise Austria of the full sum of her liabilities and the schedule for payment.

In raising the money for reparations Austria will make three bond issues. The first, which shall bear no interest will be made before May 1, 1921. The second will bear 2 1/2 per cent interest between 1921 and 1926 and five per cent thereafter. The third will bear five per cent interest.

Austria also will deliver within three months after ratification of the treaty a fixed number of domestic animals to Italy, Serbia and Rumania. All art treasures will be restored to the cities invaded territories from which they were removed during the war.

Expenses of the army of occupation must be paid from November 3, 1918, until it is withdrawn.

### IRON WORKERS PLAN TAKING STRIKE VOTE

PITTSBURGH, Pa., July 21.—Union leaders in the iron and steel industry throughout the country today began final steps for taking a strike vote in their various local unions.

This action, decided upon at a meeting of 24 union representatives here yesterday, will affect more than 200,000 men, it is said.

Included in the demands which will be submitted to the steel corporation are increased wages, eight-hour day, right of collective bargaining and double time for overtime.

### PRESIDENT DE VALERA DEPARTS FOR BUTTE

SAN FRANCISCO, July 21.—Satisfied that the West, and particularly San Francisco, is supporting Ireland's demands for independence, President DeValera of the Irish republic left San Francisco today for Butte, Mont.

DeValera was presented with an engraved sword and a silk Irish flag by an organization of Pacific Coast Hindus this morning and at noon he spoke at the Union Iron Works.

## PASTOR WHO FOUND SELF AT ANAHEIM WON'T TALK

Nobody's Business What He Has Done, Declares Rev. J. Paul Reeves who had Been Missing for Three Years.

DECLARING that it is nobody's business what he has done or where he has been, Rev. J. Paul Reeves, of Stella, Neb., who has just "discovered" himself at Anaheim, refuses absolutely to discuss his disappearance from home three years ago, or the allegation that he has a wife and family living in the east.

He has been working for the Anaheim Feed and Fuel company at Anaheim for the past four months, and it is said that he has been wandering the country since his departure from Stella, having completely forgotten his identity.

He "found" himself at Anaheim a few days ago and immediately wrote his father, Rev. J. A. Reeves, who is said to maintain his residence at Stella, advising of his location and explaining his disappearance. He refused to admit that his father lived at Stella, but said that he resided in Nebraska.

When he disappeared he was pastor of the Christian church at Morrisville, Kan., and "lost" himself while en route to Washington, Kan., in 1916. According to reports his mind is a perfect blank between the time he disappeared and the time his faculties returned and he remembered his identity at Anaheim a short time ago. The mental condition under which he labored, he asserts, was due to overwork and overstudy during his services as a pastor of the Christian church at Morrisville. He had been given up by his relatives as lost.

He is about 35 years of age and today appears to be in normal health. He has been driving a delivery for the company employing him. He expects soon to join his wife and family in Nebraska.

## BULLETINS

NEW YORK, July 21.—Twenty-one cars oranges, 1 car lemons sold. Orange market, 25 to 40 cents higher. Averages, \$2 to \$7.55. Lemons 25 cents higher. Averages, \$3.48 to \$4.71. Weather cloudy; 8 a. m. temperature, 72.

WASHINGTON, July 21.—Appropriation of \$500,000 to fight forest fires was asked today in bills introduced by Representatives Johnson of Washington and Smith of Idaho.

WASHINGTON, July 21.—The House today by a vote of 107 to 3 refused to make unlawful the storing of liquor in private homes for personal use. An amendment by Raker of California to strike out the exemption of these stocks was defeated after a speech by Mann of Illinois, who had just returned to the House after a two months' rest. Mann said it was foolish to try to prohibit the use of liquor in private homes.

WASHINGTON, July 21.—Following two nights of fighting between whites and negroes in Washington, five negroes dashed past the Naval hospital in an automobile shortly after noon today and fired several shots at sailors in the grounds. All missed. Automobiles were commandeered and citizens pursued the negroes, who escaped. Several instances of negroes firing shots from automobiles during the night were reported from nearby Maryland towns but no damage was done. Until today no firearms had been used in the fighting.

WASHINGTON, July 21.—Following two nights of fighting between whites and negroes in Washington, five negroes dashed past the Naval hospital in an automobile shortly after noon today and fired several shots at sailors in the grounds. All missed. Automobiles were commandeered and citizens pursued the negroes, who escaped. Several instances of negroes firing shots from automobiles during the night were reported from nearby Maryland towns but no damage was done. Until today no firearms had been used in the fighting.

BELA KUN FLEES BUDAPEST.

BASLE, July 21.—The Europa Press announced today that Bela Kun, deposed Hungarian soviet dictator, had fled from Budapest to Vienna.

## GIRL ACTING AS SHERIFF APPLAUDED IN COURT ROOM

Helps to Keep Order on Border

BROWNSVILLE, Texas, July 21.—Miss Charlotte McGovern of Brownsville, Texas, deputy sheriff of Cameron county for several years, was acting sheriff for several weeks recently while the Henry Ford case held her superior officers in the north.

Her duties included directing the peace officers and preserving order "down on the border" as well as the less responsible but no less dignified business of opening court. And when the diminutive sheriff, modestly gowned in a grey tailored suit with hat and chiffon blouse to match, delivered the familiar "Oyez! Oyez!" for the first time, the event was so unprecedented as to call forth spontaneous applause in the court room.

Miss McGovern is as pretty as she is intelligent and fearless. She has clear, steel-grey eyes, black hair and fair skin. She is only five feet four inches tall and weighs 112 pounds. But though short on avoirdupois, she is long on courage.

For several years she has driven her own car out on lonely roads while attending to her official duties such as bringing in special officers with their prisoners and more than once she narrowly escaped being captured by bandits.

## While Dressing For Church, Anaheim Man Suddenly Drops Dead

An inquest was being held this afternoon over the remains of Richard Winters, aged about 55, who died suddenly yesterday morning. Mr. Winters was dressing in preparation to going to church, when he suddenly collapsed. He leaves a wife and six children.

Mr. Winters was a baker, and had been employed for some time at the B. J. Dresser bakery on West Center street.

Funeral services will be held Friday morning, with burial in Los Angeles.

## SHIPYARD AGREEMENT CONFERENCE IS BEGUN

SAN FRANCISCO, July 21.—Formulation of a working agreement for Pacific coast shipyards to replace the Macy agreement began today at a conference of shipyard owners, international officers of the metal trades unions and the district councils of coast shipyard workers. A basic \$1 per hour wage and a 44 hour week are to be asked by the labor leaders.

J. Vornoroff, of Portland, Thomas Russell, Tacoma, James Taylor of Seattle, H. L. Sweeney of Oakland, R. W. Burton of San Francisco and Curley Grow of Los Angeles will represent the Pacific coast workers.

## STRIKES IN CHICAGO TO BE SETTLED SOON

CHICAGO, July 21.—Belief that Chicago's strikes and threatened strikes may be of short duration was expressed today following appointment of a board of six union builders to confer with employers who have locked out 100,000 men employed in various projects in and around the city.

Parleys were to begin today and leaders freely predict the consultations will result in an amicable settlement.

That the threatened street car and elevated railroad strike may be averted appeared probable after Thomas E. Dempsey, a member of the Illinois public utilities commission, declared the commission will favorably consider granting of higher fares to the surface lines in order to meet the demands for higher pay by the employees.

## BAKER TO TESTIFY

WASHINGTON, July 21.—Secretary of War Baker was to appear before a subcommittee of the house committee investigating war expenditures today to answer questions about alleged cruel treatment of American soldiers in prison camps near Paris.

CHARLOTTE MCGOVERN

## PRESIDENT ILL, MUST REMAIN IN BED

WASHINGTON, July 21.—President Wilson is suffering from an attack of dysentery and has been ordered to remain in bed today, Dr. Cary T. Grayson, the president's personal physician, announced.

Grayson said the attack is not serious and that he hoped the president would be able to continue his work tomorrow.

President Wilson cancelled engagements with four Republican senators and three others.

It was said at the White House the president is suffering from a slight attack of indigestion and wishes to rest.

The president was feeling indisposed Saturday night and thought the trip down the Potomac would help him. He still feels he must rest. He had no appointments Saturday. The appointments to have been had today will be put over until Tuesday.

"However," Grayson said, "it might be several days before the president is able to resume his conferences with Republican senators."

Grayson emphasized the attack as not serious, but said care is required to effect a speedy recovery.

## LIEUT. GEN. LIGGETT WILL BE L. A. GUEST

LOS ANGELES, July 21.—Lieut. Gen. Liggett who has been assigned to command the western department of the army today telegraphed Mayor Snyder that he expects to visit Los Angeles and Southern California in September.

## BIG WILSON CANNING PLANTS PURCHASED

CHICAGO, July 21.—Sale of the fish and vegetable canning plants of Wilson and company, one of the five big Chicago packers, has been made to a new \$25,000,000 corporation in New York, according to announcement made today. The purchasing company is Austin, Nichols and company. It is said a new company has been organized to handle the new industry.

It was rumored here that the New York company will form a great system of chain stores to handle the fish and vegetable canning business, as well as other Wilson packing house products, direct to the trade.

## FIRST OF "FIGHTING FIFTH" MEN ARRIVE

NEW YORK, July 21.—The vanguard of the "Fighting Fifth" of the Regulars which were among the first troops to see action in France, arrived here aboard the cruiser South Dakota. Composed of units from all parts of the country, the division faced the possibility of having few friends and relatives to greet it, so the War Camp Community Service organized a reception. The cruiser brought 1,896 troops including part of the Eleventh Infantry, military police, and the Fortieth Depot Company.

## EFFORT BY CARRANZA TO BRIBE ALLEGED

Congressman Says President Wilson Has Evidence of \$25,000 Offer

## AMBASSADOR FLETCHER WILL GIVE TESTIMONY

Mexico Says It Will Do All Possible To Punish Correll Assaults

WASHINGTON, July 21.—Developments in the Mexican situation today were as follows:

1.—Senators deeply interested in the Mexican situation planned a conference to discuss what congress can do to stop outrages against Americans.

The House rules committee prepared to hear testimony of Ambassador Fletcher, recently returned from Mexico City.

Mexico informed the United States it would do all possible to punish authors of the "odious crime" in which John W. Correll was killed and his wife assaulted. No further word has been received from Mexico as to the robbery of American navy sailors in the Tamesi river.

After hearing Fletcher, the committee was expected to decide its course on the Gould resolution, providing for a special senate and house investigating committee with broad powers.

If this investigation is ordered, members of congress state, it will be given evidence to show, among other things, that Carranza's government won recognition from the United States through bribery and deception.

Carranza Accused

One member of congress declared President Wilson had been given evidence of Carranza's attempt to corrupt American officials in Mexico. This evidence, he stated, was a check for \$25,000, signed by Carranza and offered to an American special agent if he would make favorable report on the Carranzista group.

Senator King, of Utah, who for months has been demanding a "show down" with Carranza on unpaid claims of Americans for damage to property, said he may ask that the foreign relations committee be discharged from consideration of a resolution calling on the state department to hasten action.

The Committee, Senator Lodge explained, has been unable to consider the resolution because of the peace treaty. He said he would have no objection to King calling it directly before the senate.

Senator Smith, Arizona, said he expects to address the senate shortly on the situation.

Secretary Daniels today denied that any portion of the Pacific fleet, now en route to the west coast, would be diverted to Mexican waters. Such reports are baseless, he said.

## Commander Finney Reports Three Bandits Robbed Men

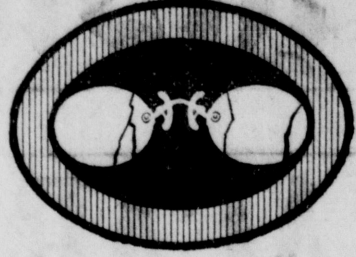

WASHINGTON, July 21.—The following dispatch from Commander Finney of the U. S. S. Topeka, was received at the Navy Department this afternoon giving further details of the Mexican bandit robbery of the American sailors on the Tamesi river:

"The motor sailing launch of the U. S. S. Cheyenne that was involved in the robbery by Mexicans on July 6 contained 13 men all of whom, were unarmed. Three Mexicans constituted the bandit party. They held up the men in the Tamesi river which at that place is very narrow. Two of the Mexicans were armed with rifles. One of the men withdrew shortly after they had arrived. All of them were dressed as civilians. The authorities of the Mexican government to whom the matter was referred expressed deep regret that the incident should have occurred and stated they were attempting to ascertain the identity of the thieves. At the present time these attempts have been entirely fruitless for none of them has been

## Be Very Careful!

It doesn't matter how handsome a person you may be, if you have a scowl between the eyes you have lost your attractiveness.

What causes scowls?

Not ill-temper, as is popularly supposed, but common eyestrain, or, if the "scowler" is already a wearer of eyeglasses, ill-fitting lenses.

You cannot be too careful about correct fitting lenses. You cannot be too cautious about replacing a broken lens. Eye strain, double sight, scowling, are quite likely to be the result of poor fitting.

Our experience is a guarantee against these common misfortunes.

"NOW I CAN SEE BOTH NEAR AND FAR WITH ONE PAIR OF GLASSES."

With KRYPTOKS you glance up from your book—just as Brown is doing in this picture—and see objects at a distance as clearly as you read the type on the printed page.

"The little rogue 'picked' my pocket! Yes, hid my reading glasses behind her and gleefully watched me fumble and search for them. How well I remember it! It made me realize how inconvenient it was to fuss with two pairs of glasses—one for reading, the other for distance—and caused me to invest in KRYPTOKS, which combine NEAR and FAR vision in a single pair."

## Light Neck Covering of any Color Is Replacing Hot Furs

BY MARGARET ROHE

(Written for the United Press)

Oh! All the girls wear 'em  
Just like in the harm.  
Enhancing their beauty full score.  
They're all net or meline,  
Through which much can be seen;  
Sure, it's veils that I mean—  
Nothing more.

NEW YORK, July 19.—When lovely Queen Louise of Prussia always swathed her neck and throat in airy lengths of tulle, gossips got busy. They said the reason for such an affectation was either a scar or a goitre. If we started hunting reasons for all the wild

fashions of the present mode, goitres would only cover one end of the situation. At least they can't be the reason why the summer girls are all shedding their summer furs to emulate Queen Louise's net neck swatches. Possibly it's because they find the frothy scarves of meline and silk net much more cooling to the bare skin than mole and fox skin. Probably it's because they find them so becoming.

In white, navy, black and brown meline or silk net these newest neck scarves are finishing neck and neck as a winning hot weather fashion. Any color, however, is permissible and some of the vivid shades of green, cerise, purple and yellow add just the striking rich color note to an all white costume. Often the meline is fashioned into a veritable scarf with the ends gathered together with a tassel as a finish, but more chic are the lengths in their virgin state, as 'twere, just as they are snipped off the bolt.

They are really the same meline lengths to which we have gone for many a season past to drape round our decollete shoulders on festive

evenings. Now we have merely lifted them from bare shoulders and a ball room setting to bare throats and an outdoor environment. Now we wear them steadily around the fashionable cloak and our necks from A. M. until P. M. and adapt them as gracefully to the marts of trade as to the mazes of Terpsichore.

Cunning little close fitting draped turbans of the meline have been bobbing about on pretty heads for many weeks, but now as an added attraction they have sprouted lengths of the meline that twist and fluff about the throat and lower face in a seductive haremlike manner. Thus the scarf is attached to the hat and the summer girl is apparently much attached to both.

Departing a bit from the all meline effect, a turban of gold tissue with tulle—brown meline scarf is a rich and harmonious combination, though the brown scarf fastened to a turban of the same toned meline makes a brown study that most anyone would delight to be in.

Getting away from these hybrid veil

He was a "character" who had given the parish much trouble one way and another. The rector, meeting him quiet and thoughtful in the street one morning said, "I was very glad to see you at the prayer meeting last night, John."

Replied John: "Oh, that's where I was then?"—Blighly, London.

There is fame and fortune in store for the garage mechanic who can get into your rear and test it without depositing three pounds of grease on the cushions.

and scarf affairs and down to plain veils, though the term plain is no word for them, flowing lace veils are having a renewed vogue this summer. In white embroidered net or black Chantilly they make equally effective additions to the broad-trimmed, flower-laden picture hats and to the quaint coquettish mid-Victorian pokes.

The figured mesh veil with a deep, plain chiffon border is very smart for street wear as well as for motoring. Hexagon, filet and plain oval mesh veils with elaborate lace, embroidered, fringed and ribbon edged borders drip from every brim and an elaborate decorative veil of white, gleaming with tiny globules of crystal beads and fringed with the same glittering drops is indeed a veritable "veil of tears."

## Reorganization of Mexico Demand, Urged by Governor

LOS ANGELES, Cal., July 21.—A demand for a complete reorganization of Mexico made jointly by the United States and South American republics is the only form of intervention which would succeed in Mexico, Governor O. A. Larazolo of New Mexico declared before leaving Los Angeles today for San Diego. He is spending a vacation in California.

Larazolo feels that if the United States should send a military expedition across the border it would mean a long, bitter war.

Orientation

## Many Coast Phone Workers Return To Their Offices

SAN FRANCISCO, July 21.—Whether or not the Pacific coast telephone workers' strike will be ended tomorrow or will continue until the complete demands of the strikers are met by the telephone company, will be known late today. The central strike committee representing the affected locals sent telegraphic queries to all locals as to their intentions. Answers are expected late today. Results of mass meetings thus far received show the following situation:

Locals returning to work—Los Angeles, Seattle, Portland, Tacoma, Bellingham, Eugene, Ore., San Jose, Santa Rosa, Fresno, Reno, Nev., Santa Barbara, San Diego and Pasadena.

Locals against returning to work—San Francisco, Oakland, Sacramento, Stockton, Modesto, Marysville, Bakersfield, and North Yakima, Wash.

San Francisco operators and electricians are seriously considering continuing the strike regardless of the action of other localities. Local operators voted 114 to 45 for staying out, while in Oakland they voted 332 to two for continuing the strike.

## THE USED BABY

Johnny was at the grocery store. "I hear you have a little sister at your house," said the grocer. "Yes, sir," said Johnny. "Do you like that?" was queried. "I wish it was a boy," said Johnny. "So I could play marbles with him and baseball."

"Well," said the storekeeper, why don't you exchange your little sister for a boy?"

Johnny reflected for a minute, then he said, rather sorrowfully: "We can't now, it's too late. We've used her four weeks."

## FRESNO BARS MINORS DRIVING AUTOMOBILES

FRESNO, Cal., July 21.—Fresno's new traffic law, which prohibits any minor driving an automobile, went into effect today.

The law provides that no private vehicle shall have a siren, but that police and fire department cars shall have sole use of such means of warning. Another new provision is that a policeman in pursuit of a fugitive who is in a motor car shall have right of way over every other vehicle.

## PRAGUE PEOPLE WANT TEACHERS OF ENGLISH

PRAGUE, CZECHO-SLOVAKIA, July 21.—Teachers of English are wanted in Prague and lessoned badly. You can't get an English lesson at any price in Prague, unless you were one of the first to decide you wanted to learn English and signed up ahead of time.

A wave of learning English has swept over Bohemia. Everybody wants to do it, or else learn "American," as the language is often called, thanks to President Wilson.

Formerly the Czechoslovaks had to learn German as the official language. Now everyone wants to know English.

## YANKS DUPE ITALIANS ON RAILWAY TICKETS

PASADENA, Cal., July 21.—Unsuspecting conductors on railroad lines in Italy, unable to read English, were duped by American jokers in the ambulance service in Italy according to Malcolm Barrett, recently returned from overseas.

Profit-sharing coupons on the reverse side of gum wrappers bear some resemblance to the railroad tickets used in that country. Needless to say these coupons frequently passed into the railroad companies' coffers.

The little boy in the fourth row will please tell us what became of the Filipino's share of self-determination.

When the house needs a new coat of paint and daughter needs a few new dresses, there is a job for some local dress-maker.

Whatever politicians may say, the man who has a business, a home or a child is willing to take a chance on anything that promises to abolish the art of organized murder.

Government by party is a 'mighty good thing for a republic, unless it degenerates into government for party.

## U. S. Senators Will Discuss Action To Take Over Mexican Robbery

(Continued from page one)

been identified or captured. I am personally acquainted with the Mexican commander and I believe him to be in good faith on the proposition."

The foreign relations committee today ordered a favorable report on Senator King's resolution requesting the state department to furnish the following information on the Mexican situation:

What steps have been taken to press for collection damage claims of American citizens against the Mexican government?

The number of American citizens killed in Mexico since Diaz retired.

The number forced to flee and the value of the property they left behind.

The number now there and the value of their property and the number of natives of other countries killed by Mexicans since Diaz was overthrown.

The state department was advised today of the robbery by bandits of the Atlantic refining company's oil doaling station at Puerto Lobos, Mexico, of about \$10,000 last Wednesday.

Formerly the Czechoslovaks had to learn German as the official language. Now everyone wants to know English.

## YANKS DUPE ITALIANS ON RAILWAY TICKETS

PASADENA, Cal., July 21.—Unsuspecting conductors on railroad lines in Italy, unable to read English, were duped by American jokers in the ambulance service in Italy according to Malcolm Barrett, recently returned from overseas.

Profit-sharing coupons on the reverse side of gum wrappers bear some resemblance to the railroad tickets used in that country. Needless to say these coupons frequently passed into the railroad companies' coffers.

The little boy in the fourth row will please tell us what became of the Filipino's share of self-determination.

When the house needs a new coat of paint and daughter needs a few new dresses, there is a job for some local dress-maker.

Whatever politicians may say, the man who has a business, a home or a child is willing to take a chance on anything that promises to abolish the art of organized murder.

Government by party is a 'mighty good thing for a republic, unless it degenerates into government for party.

## OPERATORS. MEN RESUME WORK TODAY

## Settlement of Strike Effected, With All Employees Returning To Positions

Telephone business returned to normal this morning at 8 o'clock, when electricians and operators returned to work, following settlement of the strike started on June 16. Old employees were given their former positions and those who return before Wednesday afternoon by 5 o'clock will retain their seniority.

The strikers returned to work following instructions from international officials. Sufficient concessions and allowances were conceded by both the wire administration and the telephone company officials to make continuing of the strike unnecessary.

Retrospective pay allowances to January 1, 1919, were assured on a rate of pay approximating 10 per cent increase for men and 20 per cent increase for operators in Orange county.

According to the statement of a union official today, the company agrees not to discriminate against union men or women, and to arbitration of all differences of an individual or collective nature by the committee system.

## Many Coast Phone Workers Return To Their Offices

SAN FRANCISCO, July 21.—Whether or not the Pacific coast telephone workers' strike will be ended tomorrow or will continue until the complete demands of the strikers are met by the telephone company, will be known late today. The central strike committee representing the affected locals sent telegraphic queries to all locals as to their intentions. Answers are expected late today. Results of mass meetings thus far received show the following situation:

Locals returning to work—Los Angeles, Seattle, Portland, Tacoma, Bellingham, Eugene, Ore., San Jose, Santa Rosa, Fresno, Reno, Nev., Santa Barbara, San Diego and Pasadena.

Locals against returning to work—San Francisco, Oakland, Sacramento, Stockton, Modesto, Marysville, Bakersfield, and North Yakima, Wash.

San Francisco operators and electricians are seriously considering continuing the strike regardless of the action of other localities. Local operators voted 114 to 45 for staying out, while in Oakland they voted 332 to two for continuing the strike.

## THE USED BABY

Johnny was at the grocery store. "I hear you have a little sister at your house," said the grocer. "Yes, sir," said Johnny. "Do you like that?" was queried. "I wish it was a boy," said Johnny. "So I could play marbles with him and baseball."

"Well," said the storekeeper, why don't you exchange your little sister for a boy?"

Johnny reflected for a minute, then he said, rather sorrowfully: "We can't now, it's too late. We've used her four weeks."

## FRESNO BARS MINORS DRIVING AUTOMOBILES

FRESNO, Cal., July 21.—Fresno's new traffic law, which prohibits any minor driving an automobile, went into effect today.

The law provides that no private vehicle shall have a siren, but that police and fire department cars shall have sole use of such means of warning. Another new provision is that a policeman in pursuit of a fugitive who is in a motor car shall have right of way over every other vehicle.

## PRAGUE PEOPLE WANT TEACHERS OF ENGLISH

PRAGUE, CZECHO-SLOVAKIA, July 21.—Teachers of English are wanted in Prague and lessoned badly. You can't get an English lesson at any price in Prague, unless you were one of the first to decide you wanted to learn English and signed up ahead of time.

A wave of learning English has swept over Bohemia. Everybody wants to do it, or else learn "American," as the language is often called, thanks to President Wilson.

Formerly the Czechoslovaks had to learn German as the official language. Now everyone wants to know English.

## YANKS DUPE ITALIANS ON RAILWAY TICKETS

## Military Authorities At Washington May Be Asked To Give Help

WASHINGTON, July 21.—Major Pullman, head of the Washington police, was expected to confer with military authorities today and obtain reinforcements for his men to guard against possible renewal of fighting between whites and negroes here.

Disturbances last night and early this morning took the form of numerous fist fights between groups of whites and negroes along Pennsylvania avenue. There was a clash in front of the district building, which corresponds to a city hall.

One negro was chased around the treasury building. Another was pursued in front of the White House.

There were fights in front of some of the principal hotels. Soldiers, sailors and marines were conspicuous among the white belligerents. About a dozen scattered arrests were made, but the scrimmages were so widespread the police were handicapped.

In some instances it was reported taxicabs were seized by the whites and used in pursuit of negroes. Street cars were boarded and negroes dragged to the street.

Although fists were for the most part the only weapons, a few clubs and slug shots made with stones carried in handkerchiefs were used. Estimates of the injured varied widely, most of them being so slightly hurt they were not taken to hospitals.

It was believed, however, that not more than 100 were really injured although others received black eyes and bruises.

One crowd of whites cruised for blocks on Pennsylvania avenue, attacking negroes, but finally was kept at bay by a crowd of colored men who assembled in a side street. Colored chauffeurs on police patrols were sent home, police officials fearing they would be torn from their seats. Ambulances were inadequate to care for all the calls, some injured lying on the sidewalk twenty minutes before surgeons came.

Feeling has been running high here during the last two weeks because of attacks on white women by negroes. The first fighting broke out late Saturday night.

## Looked Suspicious

An American admiral used to tell the following story against himself: He had a congressman for a guest, and, having run out of his favorite brand of whisky made up with some he could not guarantee. He explained this, and added: "Here, however, is some brandy that I've kept untouched for a good deal more than twenty years."

"Hand me over the whisky decanter," was the rejoinder.

"Why?" asked the admiral. "What's the matter with the brandy?"

"That's what I want to know, Bob," said the guest: "but if you have had it untouched in your possession for more than twenty years, there must be something pretty bad the matter with it."

"Why?" asked the admiral. "What's the matter with the brandy?"

"That's what I want to know, Bob," said the guest: "but if you have had it untouched in your possession for more than twenty years, there must be something pretty bad the matter with it."

"Why?" asked the admiral. "What's the matter with the brandy?"

"That's what I want to know, Bob," said the guest: "but if you have had it untouched in your possession for more than twenty years, there must be something pretty bad the matter with it."

"Why?" asked the admiral. "What's the matter with the brandy?"

## Says No Opponent of It Can Ever Be Elected U. S. President

In an address at the First Presbyterian church last night, Col. John Sobieski, noted dry leader, said that he is strongly in favor of the league of nations just as it stands because he believes it is a humanitarian and a Christian measure.

"At the end of the Civil War," in which Sobieski was a colonel, "I made the prediction that no man who had ever advocated slavery could ever be elected president of the United States. That prediction came true. I now predict just as confidently that no man who is fighting the league of nations can ever be elected President of the United States. I am in favor of the league of nations because it is Christian in character."

Col. Sobieski said that only through the league can wars be ended.

He said that he had lived to see three great dreams come true. He worked for years for a dry nation, for woman's suffrage and for a free Poland. Born in Poland, his father was heir to the throne when he was executed.

The Italian premier is anxious to establish friendly relations with the Allies, "especially France." Why not "especially America"? Don't care to borrow any more?

To Try Lydia E. Pinkham's Vegetable Compound."

## CHIEF TAHAN TEACHES BOYS

--- Make Fire by Friction ---

Indian Explains Methods Used  
In Days Before Friction  
Match

BY CHIEF TAHAN

(Of the Kiowa Indian Tribe)  
Gaitake—good! Mighty glad you boys came, for the chief was just thinking about you. Now don't be a bit afraid to walk on my old buffalo robe; sit right down on it. No, I haven't forgotten what you were coming for, and I've got my old fire making things all ready.

Of course, if you were Boy Scouts—and I hope you will be some day—you would know all about how to make fire by friction, for that is one of the things they do. Somebody, I presume, who had been among the Indians, learned from them how to do it, and then taught it to the Boy Scouts.

Well, here is my old hearth piece with holes burned in it. A long time ago the Indians called this the "Mother-Piece" or "Good-Mother." Next, here is my fire stick, or drill. You can see that it is not smooth, but that it has several corners on it. The old-time Indians used to call this stick "The Kind-Father-One." Now then, I put the string of the fire-bow once around the stick—you see that all the time the string is tied to each end of the bow—and now I put this little stone with a place in it to cover the top of the drill, with a little grease in it so that it will not take fire at that end when I begin to work the bow. Now I take the little stone in my left hand on top of the drill, take the end of the bow in my right hand. But first I put this powdered cedar bark under the notch of the "Mother-Piece." Now then, I put the end of the drill on the notch, and all is ready to begin. See, I push the bow from me, draw it back, keep on doing that, faster and faster. Now watch. See the smoke? Wait a little. There, now, there is a spark on the powdered bark under the notch, and the end of the drill. Now—wait—a moment till I blow it—with my breath. There! We have a blaze. Now I'll put some of this dry grass and twigs on it, and pretty soon we'll have a good fire.

The long-ago-time Indians believed that fire is a good thing that has life like an animal—that it is a kind of an animal thing, for it eats almost anything you give it. They believe that it has been inside the wood ever since the Thunderbird up in the sky batted his eyes so fast that much fire (lightning) came out of them and struck a tree. When the old-time Indian made his fire by friction he sang his fire song or prayer, to his God, that the "Mystery-animal" might be born of the "Father-Mother wood-sticks." No matter how much fire there was in the village, he always made a new fire by friction for his religious ceremonies.

It used to be a law that when a messenger approached a camp at night, he had to carry a torch to show that he was a friend. For they said that a friend was not afraid to be seen in the fire-light, and that a good man would always carry his light with him.

## Woman and Wages

Prospective Candidate—"What we maintain and will die for as necessary is equality of the sexes. A woman's work is worth as much as a man's, and she ought to get men's wages."

Then old Bill Jorkings got on his legs and spoke: "Well, so they do, mum," said he; "leastways, my old woman always gets mine."—Blighty, London.

EXPLAINS PLAN  
FOR TESTING  
BATTERIESLocal Expert Tells How Con-  
dition Can Be Determined  
By Hydrometer

Essary to use a hydrometer syringe to test a storage battery, but they do not always know just how to use it. It is not hard to learn and it is really worth before distilled water is added. If distilled water is added and then the test is made, the reading will not be correct.

while if a man would save himself from a battery repair bill.

Through the courtesy of Earl Matthews of the local Willard Storage Battery agency, the instructions on the use of a hydrometer as sent out by the Willard Storage Battery Company are given for publication.

The hydrometer has a scale graduation in the upper part of the tube ranging from 1.150 to 1.200 with .005 graduations and reads correctly at 70 degrees Fahrenheit. A fully charged cell should read about 1.230 and a completely discharged cell should read about 1.150 specific gravity, both of which are marked by a red line on the scale.

The hydrometer test should be made. It is advisable to rinse out the hydrometer syringe with water as the electrolyte will in time destroy the containing case.

In some cases the battery is so placed that it is difficult or impossible to hold the syringe in an upright position over the battery. Under such circumstances pinch the rubber tube with the left hand so that the battery solution will not run out of the hydrometer. Then lift the hydrometer out and away from the car and hold it upright to take the reading. Be careful not to release the rubber tube until it is again placed over the hole in the top of the cell.

"We will be glad at any time," said Matthews, "to show any car owner just how to take a hydrometer reading of his battery or we will be glad to do it ourselves for him if he will call."

SOLDIERS END RIOTS  
AFTER HALL BURNED

LUTON, England, July 21.—Military forces have restored order here, after rioting Saturday night, which culminated in burning of the town hall.

Trouble began when demobilized soldiers protested during the local peace parade, against the mayor's refusal to grant the use of the public park for a meeting in which pension grievances were to be discussed. The demonstrators burned the town hall and wrecked several shops. Many persons were injured.

The military was called out and restored order.

Luton, the seat of the straw plaiting industry in England, is about thirty miles northwest of London. Its population is 40,000.

## She Wept

The troops were returning and there were many touching meetings.

Mrs. Browne hadn't been able to meet her sons, but was eager to hear all about it from others who had gone there.

"Lillian, did you weep?" she asked a luckier sister.

"Did I weep?" said Lillian, smiling a watery smile. "My dear, I had a cloudburst!"

## Very Dutiful

SEATTLE PHONE GIRLS  
GO BACK TO OFFICES

SEATTLE, Wash., July 21.—Assured by their international officers that a compromise settlement had been effected with the company, in which they won their most important demands, 900 "hello" girls and 200 electrical workers, who have been on strike in Seattle against the Pacific Telephone & Telegraph Company here since June 19, returned to work this morning.

According to instructions issued by international officers, the girls and men are given until 5 p. m. Wednesday to register for work on penalty of forfeiting their jobs. Company officials predicted that normal service will be resumed within a few days.

CONSUL SAYS JAPAN  
ONLY HELPING KOREA

LOS ANGELES, July 21.—Japanese activities in Korea are only those of a "benevolent neighbor," Japanese Consul Ujio Oyama declared here yesterday in an address on "The Aspirations of Japan in International Affairs."

He declares Japan's only aspiration is free development of her institutions and commerce.

NEW MEAT MARKET  
TO BE OPENED SOON

Gerrard Bros. will open a new meat market next week in connection with their East Fourth Street Alpha Beta grocery store, at 204 East Fourth street. They are installing a modern refrigerating plant, and the most modern, up-to-date equipment, in preparation for starting a first-class market.

Hugh Gerrard, who started the first cash and no delivery store in Santa Ana, will have charge of the East Fourth street market. It will be a great convenience to people who like the quick and handy self-help system used by the Gerrards, as they can buy both meats and groceries in the same store.

The Gerrard Alpha Beta system has become extremely popular in this county, as it combines speed and moderate prices, two important considerations with the busy housewife. The groceries, which are marked alphabetically, are all displayed within easy reaching distance, with the prices marked. The customer selects what she wants, brings it to the cashier for payment, and is through with her selection in a remarkably short time. The buying power of the Gerrard stores enables them to make extra low prices, and this fact has further increased the popularity of the stores.

The new meat market will be in most experienced hands, as the Gerrards have been in the meat business for fifteen years, and have a thorough understanding of the meat problems of the household.

News Notes  
From This Week's  
Church Bulletins

## Methodist

The church has suffered loss in the death of Mrs. Geo. Kellogg, who passed to her reward Monday morning. She was a good Christian woman, outspoken and true, and active in the life of the church, so far as her strength would permit. Our people extend tender sympathy to Mrs. Gertrude Maynard and her family.

The Northwest Section of the Ladies' Aid Society will meet at Birch Park Friday afternoon at 2:30. The ladies plan to make this outdoor meeting one of more than usual interest, and expect the whole membership present.

First Church made itself felt in the Huntington Beach Assembly, Thursday, when nearly one hundred of our people took in the services of the day, remained for the evangelistic meeting in the evening. Some twenty-five automobiles took the crowd over, and much credit is due to F. W. Weiss.

**SORENESS**  
In joints or muscles, give a brisk massage with—  
**VICK'S VAPORUB**  
"YOUR BODYGUARD"—30¢, 60¢, \$1.20

man, who suggested the plan and did much to line up the machines. All report a good time, and high appreciation of the preaching of Rev. W. L. Stidger.

A great meeting of the Woman's Foreign Missionary Auxiliary has been planned for Wednesday afternoon at 2:30 in the church parlors. Mrs. Ladd will have charge of the program. Mrs. Winslow will lead the devotions, and Mrs. Sharpless will furnish the music. The meeting as arranged is to feature the Golden Jubilee Bells which will decorate the hall at the Boston meeting next fall, when thousands of these bells will make a veritable Jubilee Chime of Victory. It is an hour of supreme need in the woman's work in India. Weakened by influenza, famine-stricken, full of superstition and sin, many communities in India are objects of profound pity. These bells are a commendable effort to save some in this great heroic country, an ally of America in the war for human freedom, from disease, starvation and death.

**First Presbyterian**  
The Church Devotional service is held on Thursday evenings at 7:30 in the Sunday school room. The subject for next Thursday's meeting will be, "We Are Saved by—?"

At the morning service next Lord's Day the Sacrament of Baptism will be administered to children whose parents thus desire to dedicate them. Next Lord's Day evening service will be in charge of the women of the church.

A splendid response has come from the notice concerning the gifts for Miss Daniel and her school in Valparaiso. All packages for this purpose may be left in the office of the Rankin Dry Goods Co., before July 25th, at which time the committee will pack them for sending.

## AMUSEMENTS

In "Johnny Get Your Gun," the new Artcraft picture in which Fred Stone is starred at the West End Theater tonight, that famous comedian does his dance poetic, a celebrated acrobatic dance that won him the praise of the greatest critics, and then follows it with an extraordinary roping stunt.

With his usual agility Fred finishes the dance, which takes place on a ballroom floor, jumps to a balcony, seizes a rope, and swinging it through an open window, lassoes the Count of Bullion-nia, as the latter is about to leave on an elopement party. It is the most daring piece of acrobatic fun seen here in some time.

**Her Only Chance**

### THE PEACE LEAGUE

There is no division of sentiment among the American people as to the desirability of establishing a permanent peace between the controlling nations of the world that shall make future wars between them, or between any one of them and a nation that is not a member of the league, practically impossible.

It is proposed to accomplish this by adopting the plan of Grotius, of creating a world league, the purpose of which shall be a permanent world peace. The league would have a world legislature in which each nation would have a representation proportionate to its population. In addition to this legislative body, there would be created a world supreme court to interpret laws enacted by the world legislature, a world police force, and a world army and navy to enforce such laws and decisions.

Grotius did not propose, and it is not proposed by the nations which now seek to establish such a league, any interference with the domestic affairs of any of its members. The United States, as a member of such league would be at liberty to make laws fixing the terms and qualifications on which it would admit aliens to citizenship or allow them to own land within its confines. It would make such tariff laws as it pleased, deal as it deemed expedient with all domestic questions and, in case of a difference between it and a nation not a member of the league, would not be required or suffered to interfere. It would not meddle with the Monroe doctrine.

If, for instance, we should deem it necessary to intervene in Mexico for protection of the lives and property of American citizens, the Peace League would not interfere, even if such intervention should take the shape of taking possession of the government of Mexico or the annexation of Mexican territory, unless Mexico should be permitted to join the league, to which she has already been practically denied admission.

On the other hand, if England or France or any other nation should take active measures against Mexico in order to secure the payment of first claims of their subjects against that power, the enforcement of the Monroe doctrine would not call upon us to interfere, unless such enforcement should take the shape of the annexation of Mexico and making of it a European colony.

The treaty of peace which has been signed and formally accepted by Germany should be and doubtless will be ratified by the United States Senate, with the reservation that no act of war shall be required by the League of Nations on the part of the United States without the exercise by our Congress of its constitutional power to declare war, and with the right on our part at any time to withdraw from the League on sufficient notice.

### SUICIDE AS A PROTEST

Several Chinese patriots undertook, the other day, to commit suicide in the presence of Hsu Shih Chang, president of China. They did it as a protest against the disposition of the Shantung province by the Paris conference. Three of them succeeded in wounding themselves seriously before the guards could interfere. They were not brainless fanatics, either. They were merchants, teachers and students of good standing.

It was a characteristically Chinese thing to do. The people of that benighted country, when they have a grievance against anybody, are not inclined to kill the offender. They prefer to annoy him by killing themselves in his presence. The men in this case, not being able to die in the Hall of Mirrors at Paris, did what seemed the next best thing, and tried it in the presence of their governmental representatives at home.

East is East, and West is West. Possibly Americans will never rise to the oriental level in their manner of registering a solemn kick against public affairs being conducted as they are. And it is just as well. It might be exquisite revenge for recalcitrant senators to swallow Paris green on the White House steps, to show the President what they thought of his peace treaty. But it might not do any good.

### GERMAN WILDERNESS

The German premier, addressing the National Assembly on the occasion of ratifying the peace treaty, said: "We are about to enter upon a 40-

years' march through a desert."

It was an allusion, of course, to the wanderings of the Children of Israel. It was meant as a lament over the bitter fortune of the German nation. It was part of the general weeping and wailing that have characterized Germany ever since it was foiled in its attempt to crush and dominate the rest of the world.

In reality, it was a happy allusion, far more so than the speaker realized. The Germans have long been wont to regard themselves as a sort of modern Israel—God's chosen people of the new age. They may appear so now in a sense different from anything they contemplated, and yet fortunate.

As the New World suggests, "the Germans also have escaped from the bondage of cruel taskmasters"—the militarists, who forced them to toil fruitlessly, in slavery to false ideas of grandeur and glory in which the masses could have no part.

The parallel might be carried much farther. The Hebrews were kept 40 years in the wilderness to cleanse, purify and strengthen them. It was there that they gained the Law, and learned to forsake their false gods. They were kept wandering until every adult who had come out of Egypt was gone, and there was a wholly new generation, reared with a new discipline and new ideals. Then, and not until then, were the Israelites permitted to enter into the Promised Land.

There may be a Promised Land awaiting the Germans, too, to be enjoyed when the generation which has worshipped the mailed fist has given place to a generation reared, like those wandering Hebrew children, in the fear of God and the quest of that righteousness which exalteth a nation.

A change in ownership occurred in the Brea Progress this week when the paper, for some months past ably edited by Rev. Jesse Mitchell, was sold to W. C. Adkins, a capable newspaperman originally from Kansas but for the last seven years manager of a printing firm in Victoria, Canada. Orange county has a high average in weekly newspapers, and Mr. Adkins intends not only to maintain the Progress' standard but to continue its growth with the rapidly developing Brea field.

Ohio's a queer state. It permits the Willard-Dempsey prize fight to take place, but won't permit any moving picture exhibitions of it. Which is very much as if it allowed the saloons to sell whisky but refused to allow anybody to show photographs of saloons selling whisky.

Why don't the coal operators, who are prophesying a tragic scarcity of fuel next winter, accumulate something of a surplus stock themselves, instead of expecting the consumer to do it all? Their coal won't spoil.

Oriental dancers are to be exhibited to students at Columbia to enable them to get an idea of the customs and ideals of the races represented. And will they have shimmy dancers and jazz artists to interpret American customs and ideals?

The thirsty souls in Boston who rejoiced to see the headline, "Swig Bill Passed by the Senate," realized how desert travelers feel when they see a mirage, when they learned that the bill was only a financial one, introduced by Senator Swig.

### Give Him a Chance

Stockton Record

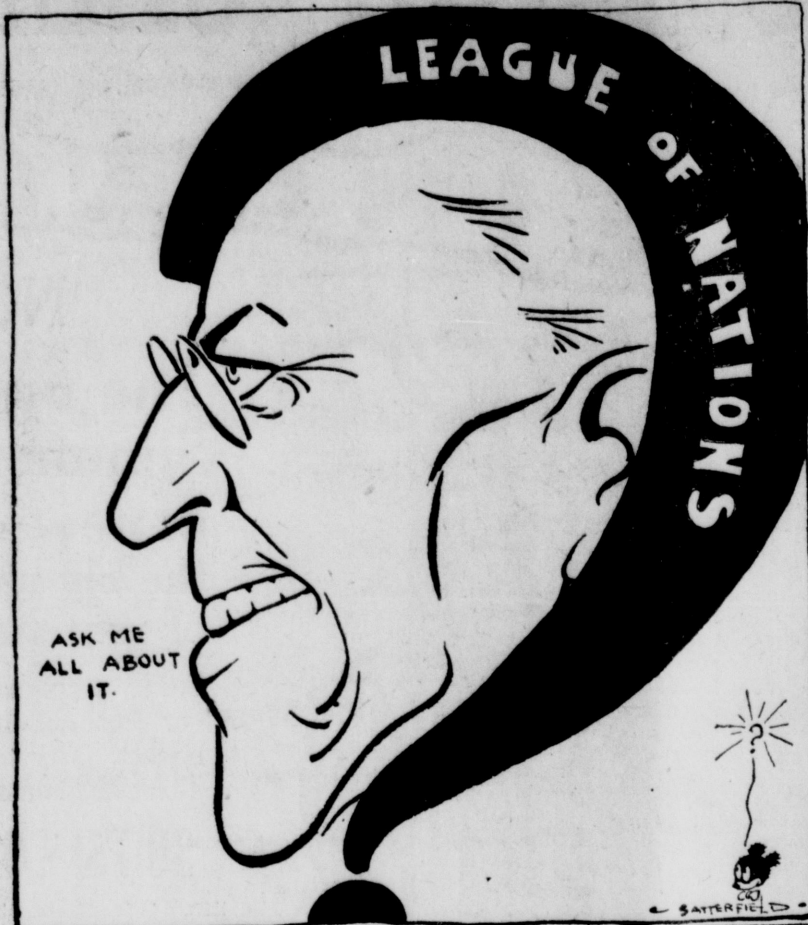

It would be hard on the man at the wheel, perhaps, if folks on the back seat were forbidden to speak to him when he is driving in the mountains and then again maybe it wouldn't. Maybe he would be glad. At any rate it should be an unwritten rule of the road that distracting exclamations should have the muffler put on them and remarks addressed to the chauffeur cut out when a car is on the grade.

The rule against speaking to the motorman is designed as a protection to the public. He is expected to give all his attention to guiding the street car along the crowded street without running down pedestrians or bumping into vehicles. The life of many a child and grown-up has been saved by the constant vigilance and prompt action of the motorman whose business it is to see not only that his car doesn't go too fast and get in the place where others have a right to be, but that they shall not be killed when they take chances by hurling themselves in front of his car where they have no right to be. He could not so safeguard the public if his mind were taken up with conversation.

How much more important it is that nothing should be done to make the auto driver for a moment relax his attention, particularly on a mountain road. Because she called attention of her husband to a particularly beautiful bit of mountain scenery, a woman up Modoc way was terribly crushed when the man lost control of the machine and it turned turtle pinning her beneath.

The good driver closes his ears to conversation when he is navigating a dangerous road, but no man is proof against the sudden exclamation, "Oz, look at that" and similar phrases. A husband gets so used to doing what his wife tells him so that he unconsciously obeys—Oh, well, if you prefer to have doubts! But don't speak to the man at the wheel if you value his life and yours. Stop, look and listen, but don't say anything.

## Great Question and Answer

## Bankers Anxious to Serve

When the banks of this country found themselves carrying first 4,000,000, then 10,000,000, then 17,000,000 and finally more than 20,000,000 people on their books as Liberty Bond subscribers, they began to consider the extension of a bigger and broader service that would place financial institutions in closer relations with the public. Thousands of these subscribers had never patronized a bank before. A billion dollar increase in savings would have been a big item to the banks before the war. But bankers saw the public put this much money into War Savings Stamps almost as a matter of small change.

His experience with the war loans has made the banker anxious to serve the public and Herbert Stryer, writing in the Dearborn Independent, enumerates some of the things that different banks are doing.

A Florida banker was asked to help finance a home for working girls. He thought the girls needed an opportunity to increase their earning capacity, and established a free night school of telegraphy, typewriting, stenography and bookkeeping in the lobby of his bank, acting as a teacher himself. Furthermore, he opened a free employment bureau to fill positions in a winter resort, where employment is often hard to find.

That this is thrift in the truest sense is shown by the fact that his bank in a town of five thousand and white population has \$2,000,000 deposits.

A Nebraska bank has served two thousand farmers in its community and about five hundred corporations and individuals in the city by helping them make out and file their income tax returns. A complete income tax bureau has grown out of this service and in addition to careful management of money affairs it encourages, the bank has profited by the deposits of thrifty, careful citizens.

A bank in Elkhart, Indiana, not only puts into its vaults Liberty Bonds and War Savings Stamps entrusted to it by small holders, but absolutely guarantees safety

of these securities without cost, entering the face value of the bonds and stamps in depositors' pass books as a receipt. When the bond coupons become due the bank clips them and enters them on the deposit book. War Savings Stamps are accepted in multiples of \$50. This is thrift for the bank as well as for the public, for it has been found that nine times out of ten depositors leave all the interest money in the bank. Moreover, this bank has developed many checking accounts among its saving depositors by the unusual device of paying three percent interest on checking balances exceeding \$200. This means that a thrifty person with \$200 or \$400 who never permits his balance to fall below \$200, can have all the conveniences of a checking account in paying bills, with the interest bearing features of a savings account.

A bank in Arkansas serves its public by taking an entire page in the local newspaper weekly, printing a thrift advertisement of its own at the top, and devoting the other space to small advertisements handed in by citizens which are published free of charge. Through this clearing house people of the town advertise for help and positions, buy, sell and rent real estate, proclaim lost and found articles, and the like. And the bank profits by the opportunity to speak on thrift subjects each week.

A bank in Youngstown, Ohio, pays especial attention to the need of foreign-born workers, having nine tellers who speak 14 languages, and are not only ready to receive deposits, cash checks, transmit money elsewhere and aid in the purchase of War Savings Stamps, but also give information about the city and America, and assist in the transaction of any business foreign-born folks may have on hand. The manager of this department speaks several foreign languages and was sent by the bank to Europe to study foreign exchange conditions and establish trustworthy bank connections in England, France, Italy, Russia and the Balkan states.

## Worth While Verses

### THE BOY IS GONE

The front door leads to the open hall,  
The shades are raised and the tradesmen call,  
The auto waits in the side yard drive,  
The blooms in the garden seem to thrive,  
A circle of spray play round the lawn,  
But there's nobody home!

The Boy is gone.

Father arises and slumps down town,  
Mother toils till the sun goes down,  
Sister is flitting about all day,  
Company comes and consents to stay,  
Something is doing from dusk to dawn,  
But there's nobody home!

The Boy is gone.

His room has a queer, too-tidy look,  
Not a chair askew, or a sprawled-out book,  
The fruit lasts long and the cake grows stale,  
The dog lies silent and thumps his tail,  
And there's no one at all to blame things on,  
For the house is empty.

The Boy is gone.

We all rush out when the postman rings,  
And unless it's a letter from HIM he brings,  
We cry "No mail!" and glare as though  
'Twas the carrier's plot to scant us so.  
Slowly the dull days dawdle on;  
The home is empty;

The Boy is gone!

Each masterpiece a  
gem.  
I hope that they  
can realize  
I'm much  
obliged  
to them.

### For Good Measure

By the Editor

Time was when I had the reputation of talking and writing entirely too much about "The Glorious Climate of California." It used to be told of me, that at a funeral which I attended while on a trip East, when the "exercises" seemed to lag, I got up and asked to be permitted to fill in the waiting period with a few remarks about "The Glorious Climate of California."

It is a fact that, when I was a boy back in old Missouri, I saw a play called "The Darnites"—at least that is the name that now comes at memory's call,—in which there was a grandiloquent character who was always decanting on "The Glorious Climate of California," and from that day to this I have been an ardent and constant worshipper at the shrine of said glorious climate.

Which recalls a climatic and climacteric incident:

Some years ago it was judicially determined by a judge of the Los Angeles Superior Court that the summer climate of Southern California is cooler than that of Chicago, and that there is no desert country between the Missouri river and the Colorado river.

The occasion of the decision was a motion for continuance of an action brought against the Los Angeles Street Railroad Company by a passenger, who claimed to have been thrown from a car by the premature starting of it, and who suffered a broken ankle in consequence. The case had been set for trial in August, and the company asked that the trial be continued to November, on the ground that its witnesses were in Chicago, and could not make the trip to Los Angeles in August, because they could not safely cross the "desert" in the summer time.

The attorney for the plaintiff opposed the application for continuance with an affidavit, in which he stated that there was no desert between the Missouri river and the Colorado river; that the alleged desert had, with the Norwegian maelstrom and the Scylla and Charybdis of the Mediterranean, long since been consigned to the limbo of things lost to this earth and could not be found except in ancient geographies and in the imagination of uninformed tenderfeet.

A glowing account of the orchards, fields, healthful ozone and delicious mountain air to be encountered on the trip from Chicago to Southern California followed, and the affidavit concluded with a description of the Chicago climate, in which the witnesses desired to pass their summer for fear of the desert heat.

According to Associated Press dispatches (read the affidavit), "There have been in Chicago during the past week 44 deaths from heat. In numerous factories work has been suspended pending cooler weather, and physicians and charity workers are kept on the jump day and night caring for sufferers. Even these horrible conditions are described by the weather forecaster, as being very fortunate for Chicago, and but for the lake breezes, conditions would have been worse."

Specific instances are then adduced: "On Thursday there were six deaths and nineteen prostrations from heat in Chicago; four persons were bitten by mad dogs, and a horse, driven mad by heat, kicked its way out of the barn and attacked its owner, whom it followed up a flight of stairs. On Saturday one man dropped dead in a saloon from the heat; another was found dead in his bed; a third dropped dead in the street; a fourth was prostrated in a Bible institute, and a roofer was overcome by heat and fell to the ground, where the melted pitch from the roof fell on his head and burned him to death."

"There is danger," ruled the judge, "that the defendant will lose its witnesses entirely if they remain in Chicago, and their health and happiness will be promoted by their being in Los Angeles. Far from being impossible for them to be here in August, it will promote their health and comfort to leave the foul water, exhausting heat and fetid and unhealthy climate of Chicago and journey here, where health, comfort, pure water and healthful breezes abound. The two witnesses ought to say to each other:

"Fly to the desert, fly with me,  
A Pullman car will transport thee;  
And oh, the choice which one can doubt,  
Of a desert with breezes or Chicago without!"

"The court shudders to contemplate what might happen to these witnesses in Chicago. It will be an act of mercy to bring them out to this climate. The motion for a continuance is denied. The case will remain on the calendar for August 2d."

## BE THOU A DREAMER

Be thou a dreamer, tho' the way be long,  
And somber shadows cloud the forward path;  
Nor lose the glad hope and vision fair  
Of brighter scenes and happier hours to come.  
In each day's stir and strain, oh, live thy best.  
Nor spurn the duty that is thine to do;  
However lowly, it is service still.  
Yet dream thou on, and never close thy sight  
To visions of some sweeter, holier time.  
When battle cries shall change to songs of joy  
As hatreds vanish that embitter all,  
While human hearts in every clime and creed  
Shall realize at last their brotherhood.  
—(Abram S. Isaacs, in New York Times.)

## Missionary Meeting Wednesday

The postponed meeting of the Woman's Foreign Mission Auxiliary will be held Wednesday afternoon at 2:30 in the First Methodist church parlor. The Jubilee Bells will be distributed. Mrs. Ladd has prepared a good program.

## Sunday at Laguna

A party composed of Mr. and Mrs. George Young and family, Mrs. Mollie Turrell, Mr. and Mrs. Horace Fine and family, Mrs. Louise Waite, Mrs. Olive Lopez, and Miss Isabel Lopez, spent the day at Laguna Beach yesterday.

A cafeteria hot lunch was served at noon topped off with orange sherbet. In the afternoon a visit was made to the art gallery. The lunch was served at the "Idle Hour," the cottage of Mrs. W. O. Hill and her daughters, Misses Blanche and Glennagene, who have as their guest for a few days, Mrs. J. E. Prentice of this city.

## Miss Gibbons Hostess

Miss Hilda Gibbons was hostess on Saturday at a prettily appointed luncheon for seven of her friends, at her home on North Main street.

Most of the girls have been away attending school, or teaching and have not had the opportunity to be together for some time, so the party Saturday was doubly enjoyable as Miss Gibbons has recently moved here from Orange and the girls are glad to have her in town again.

The afternoon was passed with informal dancing. The old school colors of red and white were chosen and covers were placed for the hostess, Miss Gibbons, Mrs. Chilton Watters, and Misses Eleanor Sturgeon, Holly Dale, Nellie Irvine, Rena Cranston, Helen Phillips and Stella Anderson.

## Reedley People Visiting

J. H. Fairweather, editor and publisher of the Reedley Exponent, Fresno County, and family are guests at the A. C. Williams home. After a few days, Mr. Fairweather will return home. Mrs. Fairweather and children will be house guests at the Williams cottage at Newport Beach, where Mr. and Mrs. Williams and son, Gerald, are vacationing. Mrs. Fairweather, who is a sister of Mrs. Williams, will be remembered by her friends in Santa Ana as Miss England.

## Impersonate Missionaries

Transformed into a charming Japanese tea garden by means of graceful palms, bamboo and the long brown tile cat tails, rockers, pennants and rugs, the front part of the First Baptist church presented a beautiful Oriental picture last Thursday evening when chapters Nos. 1 and 2 of the World Wide Guild presented an excellent and most interesting program before the Woman's Missionary Society, under the direction of the president, Miss Emily Cox. Mrs. Newton Pierce furnished the greenery for the occasion.

A number of young ladies participated in the rendition of the program, impersonating returned home missionaries who have been working among the Orientals. During the program tea and cakes were served. Mrs. Albert Hill pouring tea. Those giving the program were Misses Elizabeth Shepherd, Kathleen and Harriet Owens, Dorothy Duggan, Hazel Palmer, Mildred Fox, Minnie Freeman, Carrie Wood and Alice Strong. Mrs. Arthur Bowe led the opening devotionals.

One of the interesting features of the program was an address by Mrs. Frank Monroe of Garden Grove, a graduate of the Methodist deaconess home, who told of her experiences with escaped Chinese slave girls. Mrs. Baker, soloist of the church, pleased with a beautiful solo and the meeting was one of the most pleasant and instructive in the history of the society.

## Seen at Balboa Yesterday

Balboa was a good place to find most of your friends yesterday. The beach was crowded. Bathing was good, especially for the "fellows," as it got pretty rough in the afternoon. The breakers came piling in like they do at Laguna; they were pretty, but it made sitting on the sand rather dangerous because they sometimes washed up on the beach rather unexpectedly and unless you happened to

be watching, you were very apt to get "ducked."

The following are just a few of the Santa Ana people seen down there. Some were there just for the day and others for a longer time. A large proportion of the younger people were high school students. Others were Messrs. and Mmes. Otto Jacobs, Anthony Adams, Charles Schultz, E. D. Burge, Robert Payne, Jr., Raymond Marselis, L. J. Carden, I. Merer Robinson, Harold Nelson, Ed Pine of Orange, Misses Zoe Vanderlip, Alice Huntington, Alice Cañon of Orange, Margaret Wiley and Jim Givens, Dean Collier, George Wiley, Newton Benedict, Gordon House and Earl Hutchison of Orange.

## Bank Picnic

The first picnic and outing of the employees and families of the California National Bank was given, at the expense of the management, Saturday afternoon and evening at Laguna Beach.

The merry-makers put in their time boating, bathing, bowling and enjoying the pleasures and beauties of the beach.

The dinner, served at the White House Restaurant, was such a success that Frank Hanson, "the Walt Mason of Southern California," was moved to poetry, and his effort is quoted at the close of this article.

Those going down were: Messrs. and Mmes. E. E. Vincent, L. M. Doyle, E. L. Crawford, H. M. Sammis, A. B. Jessee, R. M. Doyle, Everett White; Misses Dorothy Sammis, Jean McFadden, Elma Salk, Jill McCabe and Messrs. M. M. Doyle of Hollywood, Garland Ross, John Cannon and Frank Hanson of Laguna.

Several parties remained over night and camped on the beach.

To the California National Bank:

I have eaten dinners  
With all kinds of sinners,  
With white folks as well as black;  
In big public places,  
With all kinds of races—  
And then I have dined in some shack.

Put off I did hanker  
To eat with a banker,  
Though never I met with success;  
My lack of finances  
Prevented my chances—  
Yes, that is the reason, I guess.

Fancy my sensation,  
Comes an invitation,  
From one of the very best banks;  
A dinner I've eaten  
That cannot be beaten—  
And herewith I give you my thanks

For Husband's Birthday  
Mrs. E. B. Covington celebrated her husband's birthday with a family dinner yesterday.

Birthday Dinner  
Miss Nell Turner of 509 West Fourth street surprised her mother, Mrs. Edna Turner, on Saturday evening with a dinner party in honor of her birthday.

The dinner was given at her home and a color scheme of pink and white was carried out in the appointments. Besides the immediate members of the family, the dinner was attended by Mrs. Adah Hanford of Pasadena and a cousin, Mrs. Kate Dauphiny, of San Francisco, who is spending the summer with Mrs. Turner.

Home Wedding at Harper  
A pretty home wedding was solemnized at the home of Mr. and Mrs. George W. Lowry in Harper at high noon, Sunday, July 20, when, in the presence of about thirty relatives and friends, their youngest daughter, Miss Ruby R. Lowry, was united in marriage to Rupert A. Symphon of Pasadena, the Rev. L. O. Bostwick, pastor of the Methodist Church in Harper, officiating, using the beautiful and impressive ring ceremony.

The bride was very prettily and becomingly attired in white silk crepe de chine, with bridal veil and wreath and carried a large bouquet of orchids. She was given away by her father, and Miss Birdie Loretta Sutherland, a niece of the bride, acted as bridesmaid. The groom was attended by his brother, Bernard Symphon.

After the ceremony the wedding party sat down to a dainty three-course luncheon. Following the best wishes of the company, the happy couple left for a week's outing at Big Bear Lake, after which they will be home to their friends in Pasadena.

Sunday Dinner  
William Martin, who leaves soon for the East, was the guest of honor at a dinner given by Mr. and Mrs. H. J. Cochems at their home at 732 Lacy street, yesterday.

In the afternoon the guests were taken for an auto ride. Present were: Messrs. and Mmes. Paul Fisher of Pasadena, Eugene Fisher and three children, William Cochems and family, Joe Geatzes, Mrs. Gertrude Cochems, Mrs. G. Mettes, Miss Hazel Milne, William Cochems and Mr. and Mrs. H. J. Cochems.

Afternoon Tea  
Mrs. J. M. Lacy, Mrs. J. M. Murray, Mrs. L. A. Mayfield and Miss Margaret Lacy were hostesses at a tea for the Daughters of Confederacy members recently.

About forty were present to enjoy the afternoon and the interesting talk given by Mr. Hughes, the naval recruiting officer of this city.

Military Wedding  
Yesterday, at high noon, Miss Myrtle Zimmerman became the bride of First Sergeant Clark W. Howard, lately of the 10th Company, 19th Regt., A. A., at the home of the bride's parents, Mr. and Mrs. H. L. Zimmerman, of East Eleventh street.

The decorations were military in character, flags and greenery being prettily utilized, and the groom in his uniform gave a very military and impressive atmosphere to the service, at which Rev. F. G. Wavies of the First Baptist church officiated. The bride wore blue silk and lovely pearl necklace and earrings, the gifts of the groom.

Following the ceremony, a dinner

was given for the immediate members of the family.

The couple left for Catalina and upon their return will make their home in Los Angeles, where Sergt. Howard has taken up the printers' trade since his discharge from the army received at Fort McArthur.

## Wedding in Canyon

A pretty wedding was solemnized just before the morning service yesterday by Rev. Perry Frederick Schrock. The couple, Mrs. May Rosenehm and George Grady, the latter of Perris, Cal., secured a license in Riverside county, so had to cross the line, accompanied by Rev. Schrock, Clyde Nancy, Mrs. Hannah M. Nichols, Lucille Pierce and Elizabeth Pierce.

The ceremony was performed in a picturesque spot, under the willows in the Santa Ana canyon.

The bride wore a pretty white Georgette crepe dress and hat to match, and carried a cluster of bride roses. Her little daughter, Elizabeth Pierce, acted as ring bearer and wore dainty white and carried carnations. Mrs. Howard M. Nichols attended the bride, while Clyde Nancy, an old friend and business associate of the groom, stood with him. Lucille Pierce, an older daughter, stood with the bridal party.

Their many friends here and in Perris wish them a very happy and successful life. They go to make their home in Perris, where the groom is interested in ranches.

## PERSONALS

A. C. Williams returned Friday evening from Los Angeles, where he has been in the interest of the Silverbeam Spot Light Company, which was formerly located in Santa Ana.

Mr. and Mrs. C. P. Rice have been enjoying a visit from their daughter, Mrs. Rosamond Dunwell, of Los Angeles, who left this week for San Francisco, where she will spend a few weeks visiting with her sister, Mrs. Harry Albee.

Mr. and Mrs. O. H. Burke are spending a few days at their cottage at Newport Beach, where Mr. Burke is putting his motor boat in trim for his summer fishing sport.

Mr. and Mrs. T. L. Warren, Mr. and Mrs. Martin Warren and son, Robert; Mrs. LeRoy Warren and son, James, left today for a week's stay at Catalina Island.

Walter K. Robinson, Jr., arrived at home yesterday from France, where he has been in a base hospital at Bordeaux for nearly a year. He went on to the Robinson ranch at Trabuco today to see his father and brother, Louis Robinson. While never having been able to get out of Bordeaux, "Mike" has many interesting things to tell about life in the army.

R. W. Dwyer returned to Brawley yesterday, after a few days' respite from the heat of the valley. He expects to come out again in August, when he, with his wife and little daughter, expect to make a trip to San Francisco and other points north.

Misses Nora Lykke and Theretta Taylor are spending a week's vacation at Balboa.

Richard Garstang received his final discharge from the army at the Presidio and arrived home last Friday.

W. O. Hill spent yesterday with relatives in Los Angeles.

Dr. I. D. Mills was a visitor to Los Angeles today.

Chris McNeill transacted business in Los Angeles today.

Alan A. Revill was a recent visitor at Hotel Windemere, Santa Monica.

Mrs. C. E. Phillips and Miss Beth Phillips left yesterday for a week's

## These Look Like Creations From Europe But They Came From New York School

HERE are sketched three of the prize-winning costumes designed for a competition in the fashion arts, initiated by the New York School of Applied Design. Quite the gem of the collection is a truly artistic dinner gown, with fitted bodice of sea-blue velvet, embroidered in silver flowers, the sleeves and skirt made of smoke-blue chiffon over cloth of silver and banded at the bottom with black lynx fur. The evening gown is a triumph of simplicity, a clever swathing of mahogany-colored velvet, set off by gold bead shoulder straps and a gold tissue rose. At the right, a sports suit of citron-colored tricollette.

visit with Mr. and Mrs. T. H. Bond, at Piru.

Robert Armstrong went to Redondo yesterday, where his wife is visiting.

Miss Eva Smith has returned from a pleasant visit at Corrao.

Lieut. F. Harris, of Long Beach, who recently returned from action in the Royal Air Force overseas, was here today as a guest of R. L. Bisby.

Miss Ruby Cameron, deputy county recorder, left today for a vacation, to be spent with relatives at Rindoo, Sonoma county, on the Russian river.

Mr. and Mrs. H. D. Patrick and Mrs. John Patrick and her son Clifford returned yesterday from two weeks spent at the S. H. Finley camp on the South Fork of the Santa Ana River. Mrs. Anna Schweissinger and Lieut. Schweissinger's parents, and Clyde Walker are others who have just returned from that camp.

Why not add \$1,000, \$12,000 or \$3,000 to your estate by taking out a 20-year pay life policy in The Macabees? No better protection anywhere. Locally we have paid to beneficiaries more than \$5,000 since Jan. 1, 1919 besides sick and accident benefits. Local lodge meets every 2nd and 4th Monday evening at K. of P. Hall. Something doing every meeting. No admission fees at present. For rates see F. G. JOHNSON, Com. J. A. HANKEY, F. K.

## ECRN

HART—To Mr. and Mrs. R. L. Hart of Flagstaff, Ariz., on July 20, 1919, an eight-and-a-half-pound son.

The son was born at the home of Mrs. Hart's parents, Mr. and Mrs. W. H. Crose, 418 McFadden street, Santa Ana. Mrs. Hart will return to Flagstaff about September 1.

## DEATHS

ZIEGLER—In Tustin, Calif., July 20, 1919, Mrs. Clara L. Ziegler, aged 83 years, at the home of her daughter, Mrs. William Satterwhite. Funeral services will be held in Los Angeles.

WEAVER—In Santa Ana, Calif., July 20, 1919, Samuel K. Weaver, aged 71 years, husband of Mrs. Ella Weaver. The remains are at Smith & Tut-till's chapel, awaiting word from eastern relatives. Notice of funeral will be given later.

Does coastwise shipping pay? During the first fifteen days of July, thirty-eight lumber vessels arrived at Los Angeles harbor from the north. The cargo capacity of these boats is 31,575,000. Watch Newport Harbor!

## FIND SITUATION IN COT CAMPS BETTERED

Call For Volunteers Brings  
Help, But Not All Yet  
Supplied

The call for volunteers to help in  
apricot camps has resulted in easing

the situation considerably. In fact, a number of pitting camps reported to day that they have all the help they need. There are still several camps, however, where help is wanted.

C. C. Collins Company's big camp on Fruit street today has all the help it needs, for the first time since the rush began. Walter Fine, C. Y. Martin and Walter Morris reported that they are today well supplied with help.

J. H. Schroeder of 2203 Lincoln street, now employing about twenty pitters and paying forty cents per 100 pounds, is in need of four or five more. His brother, F. Schroeder, is supplied with pitters. J. B. Gowdy has enough help.

H. L. Ebel of Tustin wants four pitters and man to help about the camp. He will pay pitters 45 cents per box and a man \$3 or \$3.25 a day. His phone number is Tustin 123-R.

## THE SUMMER MAN

Yachting, boating, golfing, or at tennis  
you'll want to wear that flannel suit  
or trousers this summer.

They are hard to keep from soiling, but  
Don't let that interfere with your  
ease and freedom of pleasure

Do as you like and go where you like.  
We will clean and refreshen them for you  
at so small a cost that you won't worry  
about the expense or anything else. Your  
flannel and silk shirts, too.

## WATCH 'POPS AND QUOPS' AFTER TONIGHT

New Motor Vehicle Law Goes  
Into Effect With New  
Provisions

Motorists will have to watch their "pops and quops" tomorrow, for the new vehicle law becomes operative at midnight tonight, and there are many new provisions that will cause the operators to run afoul of the motorcops if they do not post themselves.

One of the big questions of the hour is as to whether the law specifically requires that all automobiles be equipped with no-glare lens. The law does not specify that such is the case, yet its specifications on lights are such as practically to require no-glare lens.

A clear lens will not stop the glare, and this is the point of chief concern in the provision controlling lights. Glare lights are dangerous. Of this everyone who drives at night is fully aware. The lamp posts on a car might be bent to a position to make the rays of light strike at a proper distance, but this will not remove the glare feature.

Home-made devices are practically eliminated under the law, for no device can be used until it is submitted to a test by the state, and it costs \$50 for the test.

Seventeen lenses have so far been accepted by the superintendent of the motor vehicle department as coming within the law, with the candle-power of the lamps that may be used behind the lens designated. But after these have been installed, the law may be infringed by conditions that may develop, as follows:

First: Reflectors may be soiled, rusted, scratched, bent or fogged.

Second: Headlights, glasses or lenses may be soiled, scratched, cracked or fogged.

Third: Certified headlight lenses or devices may be improperly adjusted.

Fourth: A lamp bulb may be in use which is too high or too low in candle power, an old, inefficient, blackened or soiled lamp bulb may be in use, or there may be a wrong adjustment of focus or lamp bulb.

Fifth: A wrong adjustment of parallelism, unmodified beam or a wrong adjustment of tilt or unmodified beams.

Another "mixing" feature is that covering speeds. There are two speeds for the twenty-four hours and unless drivers bear this in mind they will run up against a motorcop, with a visit to a justice of the peace following. The day speed is thirty-five miles an hour and the night limit is thirty miles an hour. The day limit runs from a half an hour before sun-up to a half hour after sundown.

And, say, fellows, the speed cops of the state, through the Traffic Officers Association, have agreed to a state-wide procedure in the handling of speed and other regulations.

Under the old law limiting speed to thirty miles an hour a lea-way of six miles has been given. That means that any driver was safe at thirty-six miles and under. The same lea-way is not to be given under the new speed laws. One mile is all that will be given. Get that?

Here's another one. If you are driving on the road at thirty-five miles an hour and a machine is coming in the opposite direction, you must throttle your car down to thirty miles an hour. Get that, too, else you might meet up with a cop and justice of the peace.

One of the incongruities of the law is the provision that the two speed limits can be made available only when the driver of the motor vehicle has a clear vision 400 or more feet ahead of him. Were that section literally followed, it would be impossible for one machine to pass another going in the same direction, for with one machine following behind another on the same side of the road, it is impossible for the driver of the rear car to see the road 400 feet ahead unless he violates the law and gets a little to the left of the center of the street. But common sense is presumed to prevail here and machines will continue to overtake and pass one another as they have in the past.

The new law does not provide for a state-wide regulation of parking. It was thought before it was passed that a uniform method would be adopted for all cities in the state. Cities will make their own regulations covering this point.

## MOTHER OF ANAHEIM BUSINESSMAN DIES

ANAHEIM, July 21.—The mother of F. T. Edmiston, well-known Anaheim grocer, died yesterday morning at 1 o'clock at the Edmiston home here. She was 79 years of age, and had been visiting her son here since May 12th.

Funeral services were held at Rosedale chapel, Los Angeles, this afternoon, with interment in Rosedale cemetery.

## TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug of Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and lo! the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

## WAS ON VERGE OF GIVING UP SHE SAYS

Witheridge says He Feels Like Different Man Since Taking Tanlac; Gains 13 Pounds

"My health has improved so much since I commenced taking Tanlac that I feel like a different man altogether," said J. A. Witheridge, 1633 South Hope street, Los Angeles, Cal., the other day.

"I had been in a general run down condition for about eight months," he continued, "and when I began taking Tanlac I had reached the point where I thought I would have to give up my position and take a long rest. I was tired and fagged out all the time, and my appetite was so poor that I couldn't eat enough to keep up my strength. What little I did eat didn't taste right and I didn't relish it at all. I was also very nervous, and rarely ever got a good night's sleep, and just kept on going down hill until I was so weak and run down that I could hardly go up and down stairs, and would have to lose two or three days at a time from my work."

"One day I overheard some customers in the store talking about the good Tanlac had done them, and one of them seemed to have about the same trouble I did, so I thought that if Tanlac had helped him it ought to do me some good also, and I commenced taking it right away. That was just about a month ago, and now I am in as good health as I ever was. I have gained thirteen pounds already, and feel just fine and dandy all the time. My nerves are as steady as a clock, and I sleep just fine every night. That tired, fagged-out feeling has left me altogether, and I am as full of energy and go as any man. I have gotten my appetite back, too, and I eat three hearty meals every day. I no longer wonder at the enormous sale of Tanlac, for I now know that it is a real medicine and does the work for people."

## COUNTY IOWANS ENJOY PICNIC AT BEACH

Talk of Old Times and Good  
Program Delight Those  
at Outing

Saturday the beach at Huntington Beach was a part of the state of Iowa. At least, the talk was nearly all about Iowa, and the scores of people present were former residents of Iowa.

The occasion was the annual picnic of the Iowa Association of Orange county. It was a successful affair in attendance and in the carrying out of an interesting program.

Huntington Beach served the guests free coffee, and made them welcome to the city.

In the afternoon a program was given with E. T. Langley, the association president, presiding. Recitations by Mrs. George Huntington and Mr. Emerson, talks by George Huntington of Harper and E. C. Seymour of San Bernardino, and singing by the talented Dodge family of Harper, made up a pleasing program.

## City and County Briefs

A much needed improvement is being made to the administration building of the high school group at Fullerton. Due to the growth of attendance, it was necessary to have more room. The trustees decided to excavate under the administration building and a basement under the entire structure which will be used for lockers and apartments for pupils to eat their lunches. The basement will be nicely arranged, heated and lighted the same as the rest of the building.

Spanish Colonial is the uniform style of architecture recommended for all public buildings that may be constructed and also for any of the buildings that might be remodeled in Fullerton.

Captain Stanley Chapman, son of Charles C. Chapman, and brother of Mrs. W. H. Wickett, of Fullerton, has arrived home from Germany where he has been with the A. E. F. since the armistice was signed. The captain will spend a week at his home on the Chapman ranch, near the new big oil gusher, and will then proceed to the Presidio where he will receive his discharge. Captain Chapman, who is a graduate of Yale attended the first officers' school in 1917 at the Presidio, where he earned the commission of lieutenant and his gallant service at the front brought him rapid advancement.

J. T. Wilson, formerly proprietor of the cigar store on the Rowley corner, is back at his old game again, as a produce buyer. He is now driving a "Flivver" and buying cots and other produce for Guggenheim & Co., working out of the local branch under Wm. Smith, manager.

Sergt. D. G. Tidball, formerly bookkeeper for the Excelsior Dairy company, returned Saturday from Camp Kearny, where he was in the service for twenty-two months. He never got away from the camp, being kept there for office work and manager of a company exchange.

H. A. Hazeltine, for many years associated with the California Vegetable Union, has severed his connection with the company. With Mr. Dunning

of the lumber company at Huntington Beach and Mr. Griffith of the Boise Tile Company, he has formed a company for operating along lines similar to that of the union. He and his associates have purchased the Golden West packing house at Smeltzer and an acre of ground, and will operate there. Dunning is in charge of the packing house.

A telegram received today by Mrs. L. Reuter from her son, Herman A. Reuter, states that he expects to receive his discharge at San Antonio, Tex., about July 26. Reuter recently returned from overseas in charge of a shipment of war relics to West Point.

Mrs. E. A. Biggs and her father, Martin O'Meara have purchased the grocery store of Wood and Culver on W. Fourth street and took charge today. Wood and Culver have only had the business for three weeks.

C. V. Oldfield, 508 East Fourth, has arrived from Los Angeles to take the Orange County agency for Eastside Zest, the new soft drink. He has placed the beverage in most of the soda fountain dispensaries and is ordering in carload shipments. Oldfield plans to start an extensive advertising campaign on Zest shortly and build up a large business here.

He has moved his family to Santa Ana and will locate.

An automobile driven by E. K. Wood of Huntington Beach, and C. S. Smith, 521 West Seventh street, collided near Broadway and Atlantic avenue, Long Beach, Friday. The machines were slightly damaged but no one was hurt.

There will be no July meeting of the Associated Chambers of Commerce. Many of the delegates are taking their vacations and it was deemed best to dispense with the regular monthly meeting for July.

Relics of a cowbell and pistol, probably used at the time of the construction of the mission at Capistrano have been left with secretary Metzgar at the Chamber of Commerce. They first were secured by Dr. Barnes and today were left with the Chamber by Ollie Forgy, with whom Dr. Barnes left them before he became ill. The cowbell was made of brass and has a good ring to it today, despite the years it has been buried. The pistol

## Wool-Fast Color

and Only

**\$30, \$32.50 and \$35**

It not only sounds good, but it is true. You can buy them for that at Vandermast's

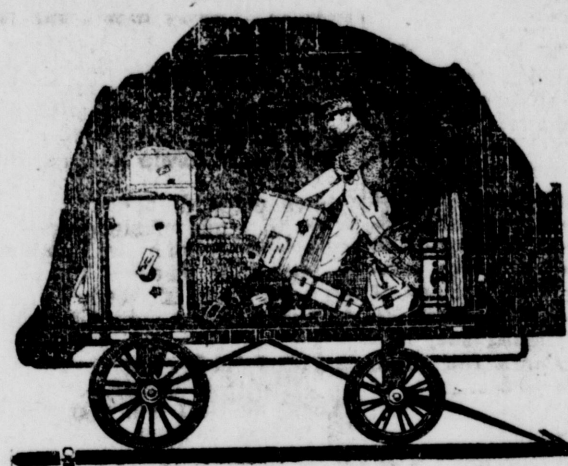

We don't know where you can match these early-bought suits at the prices of \$30, \$32.50 and \$35.00. You simply can't find them these days at that low figure.

WE REPEAT:

They are real wool; they are fast color; they are handsomely tailored; they are beautifully lined; they are guaranteed by us.

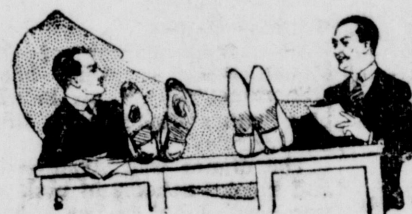

**Vandermast & Son**

Clothiers.

## Brydon Luggage Will Stand the Wear and Tear of Vacation

—You can bank on that—a Brydon Hand Bag, Suitcase or Trunk will stand the rough handling of a rough trip. Made of quality clear through and backed by reputation—that's the combination you can rely on. Everything we carry in leather goods, from a ladies' purse to a wardrobe trunk, is that way.

## We'll Resole Them

Bring those old shoes here. Shoes are too expensive to throw away without resoling. We'll fix 'em up so that you can figure on six months' more service.

**Brydon Bros.**

305 West Fourth Street.

Luggage, Leather Goods, Harness.

is one where the trigger and hammer are located underneath the handle of the weapon, instead of the hammer being on top as in the more modern guns.

A Ford automobile stolen from Geo. Prarher Saturday night by joyriders was found yesterday morning by Joe Burke, near his home. The machine was taken from Third street, between Bush and Spurgeon.

The Brotherhood of American Yeo-

men will hold a class adoption at their hall, 433 Pine avenue, Long Beach, Thursday evening, August 14. Yeomen from Anaheim, Orange and Whittier will be in attendance.

An apricot branch carrying between sixty and seventy apricots is on exhibition at the Chamber of Commerce having been brought in by Mat Nisson. It was cut from a tree in H. Diers orchard at Hemet. The cots were as close and almost as thick as bananas on a stalk.

## Citrus Fruit Growers and Fumigators

In re CORONA RED SCALE situation: Conditions in the Corona districts were perplexing and creating much anxiety to growers and experiment station men. I was informed that with dosages up to 200 per cent and with four treatments in twelve months, no adequate relief was obtained.

About the middle of April, 1919, PROFESSOR QUAYLE appealed to us for an APPLICATOR, on which, as he stated, HE COULD PLACE RELIANCE; and liquid hydrocyanic acid to establish a new schedule. He was given the services of Mr. J. D. Neuls, the use of a HYDRO-CY APPLICATOR, together with a supply of HYDRO-CY and HYDRO-CY SPECIAL; (all applied without charge, hence at our expense;) with these, closely supervised fumigation demonstrations were made on trees in the grove of Chase Plantations, Corona.

In due time and after careful inspections and determinations, it was known to Professor Quayle what results in scale killing were obtained, as is evidenced by the following statement of facts taken from a letter written at the Citrus Experiment Station, Riverside, June 10, 1919, signed by Hugh Knight, Assistant Entomologist.

"With reference to the determination on the kill of red scale with your combination at Corona, permit me to advise you as follows:

Method	Schedule	Total Counted	Number Alive	Killed
Pot	125%	1500	30	98%
Liquid	75%	1080	10	99.07%
Liquid	100%	700	2	99.92%

The other determinations are too lengthy to give you in detail as I examined in the neighborhood of 50,000 insects, but it may interest you to know that the results with the liquid were surprisingly gratifying, being uniform throughout."

(The "Your Combination" above referred to was HYDRO-CY SPECIAL.)

HYDRO-CY AND HYDRO-CY SPECIAL have been under critical research for nearly three years; and, at great expense, facts have been developed sufficient to give the confident assurance that we might offer them to the citrus fruit grower as agents for effective scale control. We are doing so now with the firm conviction that we are offering that which will accomplish everything that we claim for it, viz:

### The Very Best Means For Scale Control.

HYDRO-CY AND HYDRO-CY SPECIAL should be used ONLY with the HYDRO-CY APPLICATOR under HYDRO-CY METHODS. (THE UNIT DOSE IS 18 C. C.) WHEN SO USED ORCHARD BENEFITS WORTH WHILE WILL OBTAIN.

QUALITY, not price, is the determining factor. QUALITY OF MATERIAL, QUALITY IN APPARATUS, AND QUALITY SERVICE. These are we are prepared to give, and with these, we sanguinely predict that the net results to the grower will be most satisfactory, and probably, at a substantial financial saving as compared with any and every other material or method now known.

The new processing plant is now in operation, orders will be promptly filled.

**F. W. BRAUN**

## Baseball and General Sports

### MAYS MAY JOIN FLAG WINNING AGGREGATION

Yankees Likely To Obtain Services of Submarine Box Artist

By H. C. HAMILTON  
(United Press Staff Correspondent)  
NEW YORK, July 21.—Carl Mays stands a chance of enjoying a unique position this year—that of winning a pennant for some likely American league ball club and thus catapult himself into another world's series, to the intense dissatisfaction of other members of the Red Sox.

Mays is now idle, having detached himself from the Red Sox payroll ostensibly because the Red Sox could not win games with him in the box. He expects, of course, to be transferred either to the White Sox, Yankees, Indians or Tigers, any one of which would be pointed straight to Pennantville with the submarine star on the staff.

Indications are the Yankees will land Mays. The New Yorkers have a surplus of pitching and other talent, which could easily be juggled very satisfactorily for the Sox, it appears. Kid Gleason is moving all his checkers in an effort to get close to the king pitcher, but his material is limited. Turning over a player amounting to very much would seriously interfere with his pennant ideas.

Big trades, it is believed, are in the making. John McGraw is not satisfied with the Giants and is trying hard to land some strengtheners. The deal involving Ferd Schupp, Frank Snyder and a flock of St. Louis and Philadelphia players is not completed. The Braves, it is not intimated, are gathering together a bunch of chattels for a dicker.

The Braves and Red Sox, more than any other clubs, with the exception perhaps of the Athletics, need a change of faces most.

### BASEBALL RESULTS

### KINSEY AND LEIGHTON CLAY TENNIS CHAMPS

CHICAGO, July 21.—Bob Kinsey of San Francisco, and Miss Marian Leighton of Chicago today were title holders in the national clay courts tennis circuit, as a result of the ninth annual tournament, which ended here yesterday.

Kinsey beat Axel Graven, University of California star.  
The team won the honors in final mixed doubles late yesterday, defeating Graven and Miss Ralph Field, Cincinnati.

### AMERICANS WAGE TOOTH AND NAIL PENNANT BATTLE

### Three Managers Are Calling for More Clouting and Better Hurling

Scenery by Grove

Words by RAZZ BERRY  
They're at it tooth and nail, mostly to the rail in the American. The winner hopes to have enough teeth edge left to bite into the world's series melon. There isn't so much hope for the toe-nails, however. Three managers calling for more hitting and better pitching. They always do. The tune to do the world's series shopping is in the spring. No Dick or Frank Merriwells in the offing. Fohl, Higgins and Gleason will have to fine one in their own camps. Life would be merry, the sun would shine bright, if a 400 hitter would spring up overnight. Dull cares would vanish, smiles wreath each face, with another good pitcher to throw at first place. But with none of these phenomenal celebrities about, there's nothing to do but just scrap it out.

### Watching the Scoreboard

Home runs: Walter, Senators; Walker, Beavers; Smith, Mulligan, Bees; Killifer, Angels; Meusel, Tigers.

Spider Baum buried a one-hit game for the Seals Sunday morning, Seattle losing, 1 to 0. The Grahams took six of the seven game series with the afternoon win, 4 to 2.

The Senators won the lone Sunday game, 6 to 4, taking the entire series from the Oaks.  
The Bees monopolized the day's program. The Beavers dropped the first contest, 6 to 5, and the second, 10 to 5. Ten thousand saw the Angels take the afternoon game from the Tigers, 6 to 2. The Bengals also dropped the pre-dinner engagement, 5-2.

### 'Round Coast League Bases

Yesterday's hero: Joe Jackson. His four-base "bust" into the rightfield bleachers gave the White Sox the winning run over the Yankees, 2 to 1.  
Allen Sothern just got under the wire with his ninth straight victory, the Senators taking the short end, 5 to 6, but the Browns were unequal to the second encounter, dropping it, 13 to 7.  
Scott Perry faltered just long enough for the Indians to mass him for the winning run in a 3 to 2 game.  
The Red Sox turned over with sufficient vigor to smash the Tigers under an eight to nothing count.

### NEW LEAGUE PLANNED FOR 1920 IN NORTH

SPOKANE, Wash., July 21.—Plans for a new international baseball league in 1920, composed of teams from Spokane, Butte, Great Falls, Calgary, Edmonton and Lethbridge, Alberta, and possibly other Canadian towns and Missoula, Mont., are slowly taking shape here.  
Nick Williams, former manager of the Spokane team in the Northwestern league, is chief promoter of the new project. Reports he is sending from Canada indicate the Canadian towns welcome the new league.

DEMPSEY TO FIGHT ABROAD  
LONDON, July 21.—Jack Dempsey, world's heavyweight champion, will meet either Joe Beckett, British champion, or Georges Carpentier, European champion, here early in 1920, according to an announcement here last night by Promoter G. B. Cockran.

### FIRES CONTINUE TO SPREAD IN NORTHWEST

New Blazes Are Reported and Men To Fight Them Badly Needed

SPOKANE, Wash., July 21.—Grim crews of blackened fire fighters are barely holding blazes in forests from Montana to the western foothills of the Rockies today.

A few new fires have been reported. Lack of men is seriously hampering the work of the forest supervisors.

The Pack River fire, north of Sand Point, Idaho, is apparently the most serious. "It's hopeless to try and fight it—it's beyond control," declared Supervisor Ryan today. More than 40 square miles have been burned over, some in green timber.

No lives are in danger in any inland empire section, according to reports. Two fires are burning west of Newport, Wash., but the town will not be in danger unless the wind rises. Both fires are being controlled at present.

Every fire in the Newport district, except one, has been traced to carelessness—in most cases by campers. Only one fire was incendiary, Forest Superintendent Flower said today.

Two big fires are burning today on Big Creek and Round Top, at the crest of the divide between Priest River and Pend D'Oreille Lake.

### GREAT PROTEST STRIKE LIKELY TO FAIL

Leaders Either Lost Control or Government Warnings Are Heeded

PARIS, July 21.—Advices from European countries, especially the allied nations, indicated today that the international strike planned by the proletariat as a protest against intervention in Russia and Hungary, had lost its element of danger and in many places would be a complete failure.

Apparently strike leaders either had lost their control or had heeded government warnings.

Only in one country—Norway—were there indications that the situation might prove serious. A general strike had been called for today, following a strike Saturday when forced Christians to do without lights, water, tram car service and newspapers. The government issued an order closing restaurants and ordering these days' prohibition of the sale of alcohol.

In France the strike had been called off officially. Telegrams from Italy, Austria, Germany and Great Britain indicated the movement had been abandoned, either wholly or partially on account of the pressure of public opinion.

Dispatches from Germany announced that as a result of violent protests from German agriculturists and the public, the world revolutionary idea had been weakened very greatly.

Vienna reports indicated the strike failure there was due to public sentiment and to the fact that the Hungarian trades unions had openly declared bolshevism to be their worst enemy.

### THE TIDES

Tuesday, July 22

6:42 a. m., 3.7; 11:34 a. m., 2.3; 6:14 p. m., 6.5.

We don't believe in the caste system but it annoys us to see every ordinary 30-cent article turning up its nose at a regular dollar.

The upper class in Humland are now ready to dye for their country.

**Resinol**  
keeps skins clear in spite of everything

The smoke and dust of city life, the sun and wind of the country, the steam and dirt of housework—all spell ruin for good complexions. But the regular use of Resinol Soap, with an occasional application of Resinol Ointment, keeps the skins so clean, clear and fresh that it simply cannot help being beautiful.

All druggists sell Resinol Soap and Ointment. Why don't you begin using them?

**BOARD SUSTAINS S. A. GUARDSMEN**  
**ALL OIL LAND ASSESSMENTS**  
**IN U. S. RIFLE COMPETITION**

**No Reduction Whatever Is Elimination Contests Tonight;**  
**Granted by Board of Calif. Will Send Twelve**  
**Equalization To National Shoot**

One—two—three—four and Out! That's the way the Board of Equalization today disposed of four applications from owners of oil lands in the Fullerton field for reduction of their tax assessments.

There was no fooling around about it. The sentiment was unanimous and everything moved like clock-work when the decisive moment came. County Assessor James Sleeper testified he used the same uniform method in determining the assessment value of the oil properties, and every member of the board feels that his method is just and liberal to all concerned.

A representative of the Brea Canyon oil company was before the board today in behalf of its application for a lower assessment, and gave testimony as to the approximate production of its wells. He had completed his say at fifteen minutes to lunch-time, and then the decks were cleared for action.

"I move the assessment of the Brea Canyon oil company as fixed by Assessor Sleeper be sustained," said Supervisor S. H. Finley and it carried unanimously. Its assessment value is \$750,000.

"I move the assessment of the Birch oil company be sustained," said William Schumacher with like result. The Birch property is assessed at \$800,000.

"I move the assessment of the Standard oil company (approximately \$16,000,000) be sustained," said Supervisor Howard Wassum. Everybody said "Yes."

"I move that the Coyote Hills Land Company's assessment be sustained," said Supervisor N. T. Edwards, and this firm must pay tax on a valuation of \$125,000.

"Are there any others?" inquired Supervisor T. B. Talbert, but there were none and the board adjourned for lunch.

The Board of Equalization will have completed its prescribed two weeks' session this evening without, to date, having reduced any assessment, and then its official O K will be given the assessment books.

**AFFIRM JUDGMENT IN FRAUD DAMAGE ACTION**

The Supreme Court of California has affirmed the judgment of the Orange County Superior Court in the suit of George G. Tucker against John Bencke and Geo. F. Hanson, according to certified copy of the opinion received here today. Plaintiff's appeal from a ruling of the local court denying a motion for a new trial was also dismissed. Tucker sued for damages alleged to have been sustained through trading a 10-acre ranch at Anaheim to defendants for two lots at Portland, Oregon, which he had not seen. Tucker alleged the value of the Portland lots had been misrepresented, but judgment was granted in favor of the defendants, the court holding that there had been no misrepresentations with intent to defraud. Plaintiff asked for a new trial, which was denied, and then filed an appeal.

**PEACE LEAGUE'S COMMITTEE IS APPOINTED**  
Organization Is Represented in Most Communities of County

Nearly all of the communities of Orange County are now represented in the Orange County organization of the League to Enforce Peace, of which William Howard Taft is the president. At a recent meeting of citizens interested in the league, S. H. Finley of Santa Ana was elected president and Walter Eden of Santa Ana secretary of the organization. The executive committee has been extended until it is now organized as follows: S. H. Finley, chairman; Walter Eden, secretary; J. P. Baumgartner, Rev. A. T. O'Rear, Rev. P. F. Schrock, Mrs. J. Dick Wilson, all of Santa Ana; Jay C. Sexton, Brea; W. J. Marsh, Yorba Linda; C. A. Palmer, Olive; M. J. Pickering, La Habra; J. F. Ahlborn, Anaheim; I. D. Jaynes, Buena Park; J. S. Rice, Tustin; E. E. Jahraus, Laguna; J. J. Conrad, Huntington Beach; Vernon King, Garden Grove; L. P. Drake, Fullerton; M. C. Pearson, Orange.

**HUGGIN' AND KISSIN' 'WAY INTO THE NIGHT**  
If a lovelorn couple should plant themselves on the sidewalk just outside your fence under an apricot tree, lean against the fence, and hug and kiss 'way into the night, disturbing your slumber, what would you do? And if you ordered them away and they refused to go, saying they were on a public thoroughfare, then what would be your next move?

These questions were put squarely to a family living on Logan street. They didn't care to be kept awake by the loving going on outside and neither did they want their fence broken down by the lovers leaning against it.

Today they told their troubles to Sheriff Jackson, who admitted there were not many things that could be done to make the lovers go somewhere else. However, he suggested the garden hose might be brought into play with cooling effect.

If a body is sprinkling his garden and some of the water should happen to fall over the fence onto the sidewalk, who's to blame?

state headquarters in San Francisco," said Col. Finley today. "That will be distributed through the mails or otherwise as quickly as possible. Our organization is now in such shape that it can go ahead on short order and do anything required of it by the state organization. The organization is a county-wide organization. Representatives upon the executive committee will be added to the list as it now stands just as fast as localities not already organized complete organization."

**SOON TO BUILD PLUG FACTORY IN ILLINOIS**  
C. E. Treat Finds Big Demand For Appliance Invented By Him

With a tremendous and growing demand for his universal electrical plug, C. E. Treat has concluded that his company, the T. & W. Universal Plug Co., must have a factory of its own. Decision has been reached to build that factory at Rockford, Ill., within a few weeks.

Treat returned Saturday from a stay of several weeks at his Chicago office. The company started business here three years ago, after Treat had invented an electrical plug that could be adjusted to fit into any appliance, such as toaster or electrical iron. By mail, a big business has been worked up. Treat endeavored to keep up with his orders by contracting the manufacture to others, but that method has not been satisfactory. The contractors have not been turning out the product fast enough, and the company is now 35,000 plugs behind its orders.

"We will soon have a New York office," said Treat today. "Our main

**BURGLAR WORKS CITY SATURDAY OR SUNDAY**

A "light fingered" gent operated in this city Saturday night or Sunday night. He visited two offices in the Spurgeon building and one in the Orange County Trust & Savings Bank building, but got nothing worth while.

He got into the offices of Drs. Tralle and Rossiter and Paul. Nothing is missing from the office of Dr. Traue. One dollar's worth of stamps was his booty in the other office.

He tried to jimmy the door to the Dr. Whitson office in the Orange County Trust & Savings Bank building, office will continue to be in Santa Ana.

Before building the new plant at Rockford, Ill., the company will be incorporated for \$125,000.

but failed. A label bearing the words "Extra Dry" was found in front of Dr. Whitson's door this morning when he came to the office. Whether it is the label from a bottle of whisky or the label from some explosive, could not be determined. It may be the label was in no way connected with the attempt at robbery.

**TWO OFFICES ROBBED**

Two dental offices at Fullerton were entered. From Dr. G. W. Menges' office, the thief got two tubes of dental narcotics and a vial of a solution used in dentistry. No attempt was made to take valuable dental tools. At Dr. Goodwin's office the combination of the outer door of the safe was worked, and the knob of the inner door was knocked off. However, entrance to the interior was not gained. Nothing was taken from this office.

From the "Register" of July 16.

**Bank Deposits Are Increasing Per Month \$250,000.00**

The Santa Ana bank statements of May 12, 1919, compared with those of June 30, 1919, show an increase in deposits just a little short of half a million dollars.

To be exact, the total net deposits in the Santa Ana banks were:

June 30, 1919	\$8,520,409
May 12, 1919	8,074,157
Increase in less than seven weeks	\$446,252

This is at the rate of over \$250,000 per month, at a season when comparatively little of Orange county's products are going to market, and when people are withdrawing money for vacation trips.

The only explanation is that our people are getting big dividends on outside investments and our population is increasing, each newcomer bringing in more or less capital.

**Look At This Statement of Increase in BANK DEPOSITS**

**IN less than seven weeks the deposits in the Banks of Santa Ana have increased \$446,252, at the rate of over \$250,000 per month**

**During the same period the increase of the combined deposits of**

**THE FIRST NATIONAL BANK AND THE FARMERS and MERCHANTS SAVINGS BANK**

**Exceeded the combined increase of all the Banks of Santa Ana by \$35,265.00, the combined increase shown by these two Banks amounting to . . . . .**

**DRAW Your Own CONCLUSIONS.**

These are the banks that put ample profits into their surplus to make them stronger for their patrons and give them more security.

These are the banks that take care of their customers, large or small.

These are the banks that are protected by the United States Bank Act, the Federal Reserve Bank and California State Bank Act.

**THE NATIONAL BANK FOR COMMERCIAL BUSINESS; THE SAVINGS BANK FOR SAVINGS BUSINESS; CLEAN CUT, NO CONFUSION OF ACCOUNTS.**

These are the banks that stay with the people. Why? Because the people have stayed with us for over 30 years. Thanking the citizens of Santa Ana and Orange County for their confidence in us, and their continued business,

**FIRST NATIONAL BANK FARMERS and MERCHANTS SAVINGS BANK**

SANTA ANA, CALIFORNIA, MONDAY, JULY 21, 1919.

## NEW LAWS WILL BE IN EFFECT COMMENCING TOMORROW

### Of Those Passed, Chief Interest Here Is in Water Conservancy Act

Tomorrow, July 22, laws passed by the last legislature and approved by the governor, unless subjected to referendum, go into effect.

While Orange county is interested in a general way in scores of new laws, probably none of the measures that will be effective tomorrow comes closer to the county than does the conservancy act, under which it is proposed that Orange, Riverside and San Bernardino counties shall organize into a district for the care of the Santa Ana river from its source to the mouth, to prevent damage by floods and to conserve water for irrigation purposes. It is expected that action toward the formation of this district will be taken at a meeting of the Tri-County Conservation Association in October.

Tomorrow, Newport Beach secures title to state tidelands inside the city limits of Newport Beach, and Orange county title to tidelands of Newport Bay outside the city limits of Newport Beach.

The new county government act goes into effect tomorrow. Under it but one new deputy is added to the courthouse personnel. Kenneth Morrison becomes a deputy county clerk under the authority given County Clerk Backs to make the appointment, and Deputy A. L. Hitchcock is advanced to Chief Deputy. Whatever raises in salaries were provided for in the county government bill go into effect tomorrow. The salary of the county stock inspector is cut from \$75 a month to \$10.

There are many measures relative to state commissions and state government that become effective. One of them is the new law regulating the weighing of hay by hay balers.

**Workmen's Insurance**  
Many people here are interested in the amendments to the Workmen's Compensation, Insurance and Safety Act. The Industrial Accident Commission has prepared a summary of these amendments. Approximately seventeen changes are made in the act.

The waiting period was reduced from ten days to seven days. Compensation will be payable to the injured man on the eighth day after he leaves work as the result of an industrial injury.

When an employee under sixteen years of age is injured, it shall be the presumption that such injury was not caused by serious and willful misconduct.

Serious and willful misconduct cannot be charged against the injured employee by the employer if the injury is caused by the failure of the employer to comply with any provision of law or any safety order of the commission with reference to the safety of places of employment.

In claims of serious and willful misconduct made against the employer, the general superintendent is made responsible for the corporation, as well as the executive or managing officer.

Non-resident aliens are required to prove their dependency and cannot be conclusively presumed to be dependent.

Applications for adjustment of controversies may be filed with the Industrial Accident Commission by the attorney or other representative of an injured employee, if authorized to do so in writing.

A lien against compensation will be permitted for the support of dependents, as well as for the living expenses of the employee.

Self-insurers shall not be required to pay any sums into the State Compensation Insurance Fund to cover liability for compensation, excepting in life pension cases.

**New Auto Laws**  
Most automobile drivers by this time are familiar with the new laws regulating traffic. The changes have been explained fully in the Register auto section.

Several of the new laws are of special interest to the farmers, particularly the irrigation measures, which aim to increase the agricultural resources of the state by transforming arid and semi-arid areas into productive farms.

Probably the most important of these is the bill of Senator Irwin which permits the formation of an irrigation district by a majority vote of the electors therein. The present law requires a two-thirds vote and big land holders have been delaying development by reason of this high percentage requirement.

Another measure that becomes a law gives the railroad commission control of rates and service in the storage of foodstuffs in warehouses, and persons and corporations furnishing heat, steam, etc., for domestic or business use, by virtue of certain new public utility laws.

The child labor is another one in which great interest has been shown. This regulates the employment, hours,

(Continued on page twelve)

## WHAT REGISTER CLASS ADS. DID FOR ONE MAN

If you have any personal property for sale, the experience of Mr. Chas. Ocain of Myrtle street last week will interest you. He put three classified ads in the Register, one of a typewriter, another advertising a sewing machine, and the third, a Ford automobile. The results speak for themselves:

Articles Advertised	No. insertions of ad.	Cost of ad.	Sold for
Typewriter	Two	25c	\$ 60
Sewing Machine	Two	25c	\$ 30
Automobile	Four	50c	\$475

Total cost classified ads, \$1.00; Total sales, \$565.  
This shows what Register classified ads can do. If you want to sell personal property, try these result getters.

## DRIED PEACHES PRICE LIST IS ANNOUNCED

Peach prices for the 1919 crop have been announced by the California Peach Growers, Inc., a state co-operative association. Peach growing is of small consequence in Orange county, yet many residents of this county are interested in peach growing elsewhere.

The price list agreed upon by the directors of the California Peach Growers, Inc., is announced as follows:

Effective this date and until further notice our prices f. o. b. our California factories on 1919 crop of dried peaches for the domestic and foreign trade: September, October and November shipment, seller's option. Guaranteed against our own decline until January 1, 1920, are as follows: Standard yellows, 14½c; Muirs, 15c. Fancy yellows, 16½c; Muirs, 17½c. Choice yellows, 15½c; Muirs, 15½c. Extra fancy yellows, 17½c; Muirs, 18½c.

Slabs, yellows, 14½c.

For "practically peeled" add 1½c per pound (any grade).

Prices above are all bulk basis.

For packing in:

Fifty pound or 25 kilos boxes, add 1c per pound.

Twenty-five pound or 12½ kilos boxes, add 1½c per pound.

Ten pound boxes, add 2c per pound.

Blue ribbon peaches, packed in five-pound cartons, 12 case, \$12 per case.

Blue ribbon peaches, packed in two-pound cartons, 24 per case, \$10 per case.

Bakers' special, "practically peeled," 16½c per pound, bulk basis.

## SEAL BEACH WATER CARNIVAL JULY 27

Elaborate plans are being made by the Seal Beach Chamber of Commerce for the Water Carnival that will be held there on Sunday, July 27. Two features on the program that are attracting interest throughout Southern California are the ten-mile yacht race over a triangular course just off the beach, and a motorboat race along the coast just outside the breakers.

Two beautiful silver trophies are offered in each event by the Chamber of Commerce and the fastest boats in the South Coast and Newport Beach Yacht clubs will compete for the yachting trophy. The speed boat race will be open for all.

Besides the big races there will be a good program of swimming, diving and other sports for men, women and children. Cameron Coffey, the six and one-half year-old champion diver and swimmer has entered the children's diving contest. Another feature of the program will be swimming, diving and life-saving stunts by a man over eighty years old.

Eugene Trago of Santa Ana will do trick surf board riding, being trailed through the water by a motorboat. It will be the biggest one-day aquatic program ever seen on the Pacific Coast.

## \$47,832,292 Value of Imperial Valley Crops During 1918, Says S. P.

IMPERIAL, Cal., July 21—Imperial Valley, comprising 413,000 acres under cultivation on the American side of the border and 80,000 acres on the Mexican side, produced crops worth a total of \$47,832,292 during 1918 according to data just compiled by the Southern Pacific railway.

It required 18,682 cars to move this crop—cars enough to make a train which would extend from Imperial to Los Angeles. It represents produce worth approximately \$600 for every man, woman and child in the valley.

Twenty-one thousand tons of cotton worth \$10,625,000 was the largest single item. Other products contributing \$5,000,000 or more to the total value, in order of importance were alfalfa, livestock, milo and canteloupes.

The Chino Valley (San Bernardino county) has just completed and equipped a packing house, for the Apple Growers' Association of that valley.

## MOTORBIKE HITS BETWEEN AUTO AND TRAILER

Orrin Decker, 13 years old of 169 N. Lemon street, Orange, suffered the fracture of his right leg yesterday forenoon, when a motorcycle which he and J. E. Noyes of Orange were riding, ran in between an automobile and trailer at the corner of Fourth and Broadway, this city. The auto was driven by Edwin Dickinson, of the Santa Ana Transfer Co. The boy is at the hospital, where he was conveyed immediately after the accident.

Decker was riding with Noyes, and the motorcycle was badly damaged. Noyes was driving South on Broadway and Dickinson east on Fourth street. Witnesses say that Noyes became confused and instead of turning his bike to the right to dodge the auto and trailer he turned to the left. He was going too fast to make the circle, with the result that the motorcycle ran between the machine and trailer.

## BILL HART SIGNS UP FOR 9 LAST PICTURES

LOS ANGELES, July 19.—"Bill" Hart, idol of the screen world—has signed with the Famous Players, Lasky Corporation. With practically every producer in the country bidding for his film Hart remains with F. P. L. The Wm. S. Hart productions will come to the silver sheet in future under Hart's direct supervision, and the big star has announced that he will make but nine more films.

This he states is conclusive. He signed the papers yesterday which make this contract—one of the most important the cinema has known—binding and which will assure Adolf Zuker, Jesse Lasky, and the members of the Paramount Aircraft Productions of the privilege of releasing the "swan song" epics of his career as a film star.

## INDIANA SOCIETY PICNIC SATURDAY

Many from Orange county are expected to attend the annual basket picnic of the Indiana State Society, to be held at the picnic grounds in the southwest corner of Exposition Park (Vermont and Leighton avenues) Los Angeles, next Saturday, July 26, the one day of the year when all former residents of Indiana can get together and renew old acquaintance.

Exposition Park is especially fitted for such an occasion, as Attorney William M. Bowen, a Hoosier, fostered the park and made it one of the beauty spots of Los Angeles. The swimming pools, swings and lawns will be enjoyed by young and old, to say nothing of the comfortable tables under wide-spreading trees. Sandwiches and cones can be had on the grounds by those not fortunate enough to have baskets well filled at home. Coffee brought free to those buying badges. Bring cups.

County registers will be posted throughout the grounds to enable friends to find each other.

Clarence D. Lawler and Miss Goldie B. Young, on program and publicity committee, have arranged for the following to be given at 3 o'clock: Addresses of welcome by the president, Geo. T. Thornberg and host, William M. Bowen.

Speaker of the day, Dr. Geo. F. Boyard, a Hoosier, and president of the University of Southern California.

Baritone and saxophone solos by Chas. B. Leffler.

Selections by the popular tenor, Amado Fernandez.

Plans selection by Miss Louise Bowen.

"On the Banks of the Wabash," and patriotic selections by the society's favorite, Miss Mabel Cushman.

The jovial Hoosier, Ed Donnell, will keep music going most of the day with the aid of the megaphone.

Fletcher Music Method. Nell Isaacson, 422 Spurgeon Bldg. Pacific 1455.

## TWO OLD CO. L BOYS TALK TO CAPTAIN NEB HOLDERMAN

So Interested, Time Went by Fast, and They Overstay Leave

Lee Kenyon and Claude Hartman, who were members of Co. L under Capt. N. M. Holderman at Camp Kearny, visited the captain the middle of June and with him spent several hours recounting experiences. They got so interested that they were unable to get back to their company on the day called for in their passes.

Between the time Kenyon and Hartman left Camp Kearny with the first contingent of Co. L and the time they met their old captain again, all three went up against the German guns, against German shrapnel, machine gun bullets, hand grenades, rifle fire and gas.

Kenyon and Hartman on arriving in France were transferred to the Fifty-ninth Infantry, and with it they saw some of the hardest kind of fighting. A few weeks later Capt. Holderman was transferred from the Fortieth division, and his experiences took him into the stand of the lost battalion.

Kenyon and Hartman in July and August fought in the battle at the Vesle river, the second battle of the Marne. They took part in the St. Mihiel drive, where Kenyon says he made his first acquaintance with coles, and they fought in the Meuse-Argonne battle in September and October.

Writing to his father, Will H. Kenyon, on June 18 said:

"I spent three very pleasant days in Coblenz last week. We returned Monday. Our pass was up Sunday, but Hartman and I visited Capt. Holderman Sunday. He is located in a little town by the name of Oberbieber. We arrived at 1 o'clock that afternoon, and we became so interested in relating old experiences that it was 6:45 o'clock before we knew it. Then nothing would do but we must eat supper before taking our departure. As the captain is acting major of his battalion, it wasn't anything out of place for him to make arrangements for three places at officers' mess.

"This was one instance of where two 'bucks' were allowed the privilege of eating with the officers. I said 'bucks,' but that is incorrect, for Private Hartman is a corporal. After we had eaten, it was too late to attempt to catch the train from Coblenz. However, we had no regrets at all, for we certainly had a fine afternoon."

"I am feeling just dandy. Neb said I looked heavier than when I was home. I crave for the day to come that will start me toward home."

## Two Southern Business Women Planning Affairs For Convention Visitors

ADELE DROUET

MRS. LUCILE ARMY

### Entertainment for Guests at World Meeting Is Being Arranged

NEW ORLEANS, La., July 21—Two of the busiest women of the country are in this city. They are Miss Adele Drouet and Mrs. Lucile Army, business women.

Miss Drouet is president of the Woman's Advertising Club of New Orleans besides being advertising manager for a big department store here. Mrs. Army is chairman of the attendance committee of the advertising club and also is connected with the advertising department of a New Orleans newspaper.

In addition to their regular duties both women are arranging for the entertainment of the business women who will attend the Victory convention of the Associated Advertising Clubs of the World in New Orleans, September 21 to 25.

The Union Oil company has started operations on its new San Pedro refinery, turning out 10 carloads of gasoline daily.

**NOTICE TO MY PATRONS**  
My phone, 987J, is out of commission. Miss E. Shaver, dressmaker.

I am, for we certainly had a fine afternoon.

"I am feeling just dandy. Neb said I looked heavier than when I was home. I crave for the day to come that will start me toward home."

## MATEER SECURES 4TH, SYCAMORE CORNER FOR STORE

Will Fit Up Handsome Drug Place by First of Coming Year

E. T. Mateer, druggist, today is making plans for fitting up one of the handsomest drug stores in Southern California, with the location at the northwest corner of Sycamore and Fourth streets, better known as the Rossmore corner.

Alterations, improvements and fixtures will fall for an expenditure of about \$10,000, with the date of occupancy set for the first of January of next year. An option on the property has just been secured. Anticipating possible notice from the First National Bank to vacate the room, he is now occupying, Mateer has taken time by the forelock and prepared against such a possibility.

The room he now occupies is a part of the bank property, and the bank now has under advisement the erection of a five or six story business building on the corner, covered by the Mateer drug store, the Santa Ana book store and the Farmers and Merchants Savings Bank.

No expense will be spared in making the new Mateer drug store one of attractiveness and convenience.

The new location will include the rooms now occupied by the Western Union Telegraph company, the insurance office of Robbins & Son and the room immediately to the north, making the Mateer store extend on Sycamore street back to the entrance to the Rossmore hotel.

The basement will be fitted up by Mateer and it will become a part of his lease, giving him room for operating part of his business in the basement if it becomes necessary.

"Proper arrangement of a drug store does not require any great amount of room," declared Mateer today, "and in my rooms I will provide for fixtures and arrangements of them that will make the space ample to give me as nice a drug store as will be found anywhere in Southern California."

Mateer also has taken an option on the Rexall drug store at Anaheim, formerly owned by O. A. Mullinix, and more recently owned by Mr. Cadman. He will exercise the option at once.

Bamboo Poles for walnut growers; finest shipment in years. At Victor Walker's Sporting Goods, 205 W. 4th.

## Watch Your Grocery Costs For This Month

You can easily keep your grocery costs down to the minimum required by careful housewives. Often it is only a question of the right method of buying.

Our self-help method is the quick, economical and modern way to buy. Our low overhead cost and the buying power of our seven stores enables us to give you the best fresh groceries for the lowest possible price. Try the Alpha Beta Stores for a month, watch your grocery costs, and you'll have more grocery money left over than ever before.

# JEWRY OF RUSSIA FIGHT AGAINST BOLSHEVISM

**M. M. Vinaver Says Political  
Reaction in Country  
Is Inevitable**

The author of this article, M. M. Vinaver, is the recognized leader of the Russian Jewry, and the chairman of the central committee of the Constitutional-Democratic party. Prominent in the liberal movement, M. M. Vinaver was appointed senator by the Russian Provisional Government immediately after the March revolution of 1917. After the Bolshevik revolt, M. M. Vinaver was elected member of the Constituent Assembly from Petrograd, and later, after escaping from Petrograd, M. M. Vinaver served as minister of foreign affairs in the government of the Crimea.

BY M. M. VINAVER  
The entire Russian Jewry struggles against Bolshevism. This is true not only with regard to the bourgeoisie but to the democratic classes of the Russian Jewry as well. It is sufficient to say that not a single Jewish Socialist faction has joined the Bolsheviks. All political factions of the Russian Jewry are struggling against Bolshevism.

The great majority of the Jewish population, including many of the poor, are being classed by the Bolsheviks with the so-called bourgeoisie, and every place where the Bolshevik rule, the Jewish population, not to speak of very insignificant exceptions, is suffering and starving.

The Bolshevik regime has destroyed the industries and the trade, and the Jewish population, which made its living mostly through participation in the industrial and commercial life, is suffering probably more than other nationalities. At the same time, the Bolsheviks are persecuting all religions, and the Jewish religious institutions have suffered from their despotic rule not less than the institutions of the Christian religion.

**Jews Against Bolshevism**  
The anti-Semites are making very wide use of the fact that Trotsky is a Jew, but the participation of several Jews among the Bolshevik leaders does not nullify the fact that the Russian Jewry, in its overwhelming majority, struggles actively against Bolshevism. It is significant that Bolshevism spread mostly in Central and Eastern Russia, where the Jews constitute an insignificant minority.

In certain circles in Western Europe, and I believe, in the United States, there is a belief that the political reaction in Russia is inevitable after the elimination of the Bolsheviks. This opinion is probably due to the impression that the Russian democratic intelligentsia has disappeared, and that the only two factors working in Russia at present are the Bolsheviks on the one hand and the armies of Admiral Kolchak and General Denikin on the other.

I wish to emphasize that the Russian democratic intelligentsia whose task it is to build a new Russia has not disappeared, but, on the contrary, has been working very intensively during the last months, although their work is not visible to the outside world. The Russian democratic forces are concentrated around Admiral Kolchak and General Denikin. They are also working in Paris, London and other centers abroad.

The immediate task before the Russian democrats is the establishment, in co-operation with the Russian government in Omsk, of such a democratic system in Russia as will safeguard her from a return to the old regime after the Bolshevik tyranny is destroyed. Only through the establishment of a stable, democratic regime can Russia be saved, and with Russia, the great part of the Jewish people who live within her boundaries. The American Jewry would help their brethren living in Russia very much if they would help us in our work of building up an anti-Bolshevik democratic Russia.

**Employment Bureau  
Will Remain Open**  
With the taking over by the State Employment Bureaus of all the employment business formerly conducted by the United States Department of Labor in Los Angeles, all anxiety as to the fate of the former city bureau has been set at rest.  
When it was realized last March that it was practically certain that the United States Employment Service would not receive any money for branch offices from Congress for the new year, commencing July 1st, State Labor Commissioner McLaughlin laid the matter of taking care of the Los

## OUTBURSTS OF EVERETT TRUE.

**BAUER, MUELLER  
TO TELL PLANS  
OF GERMANY**  
Angelo offices before Governor Stephens, who promptly met the situation by getting the legislature to grant enough money to take over the employment business, should the federal department have to drop it.  
On July 3, when a telegram was received by Chief Examiner Bernatche of the U. S. Employment Service, to disband his force, he immediately wired Labor Commissioner McLaughlin, who authorized him to keep the office open and the force on duty. All the employees agreed to stay on the job, so the good work of the last five years was not allowed to drop.  
For the year ending June 30, last, the men's division, at 206 Court street, found employment for 66,965 men; the women's division, 207 South Broadway, placed 12,998 women, and the commercial division, 207 South Broadway, placed 2496 men and 2735 women, making a grand total of 85,194 positions filled during the past twelve months. During the same time, the state office in San Francisco placed 57,461 men and women, which figures show Los Angeles well to the good.

**EXCHANGE SHIPMENTS  
WILL TOTAL 1100 CARS**  
SAN BERNARDINO, July 21.—According to Manager John L. Cummings the San Bernardino County Fruit Exchange is just completing the most successful year of its history. Returns from the 975 cars of fruit shipped to date have been \$1,100,000 and it is anticipated that shipments will run as high as 1100 cars before the season closes August 31.  
The San Bernardino exchanges allied with the San Bernardino County Fruit Exchange have expressed their approval of the Fruit Growers' Supply Company, an auxiliary organization of the California Fruit Growers' Exchange, to purchase 41,000 acres of Lassen county timber land, erect a sawmill on the property and increase the capital stock of the company from \$1,500,000 to \$1,600,000.

**Speakers Expected to Say  
Huns Will Adhere to  
Peace Treaty**  
BY CARL D. GROAT  
(United Press Staff Correspondent)  
BERLIN, July 21.—Chancellor Bauer and Foreign Minister Mueller are to make "a program of speeches" next week, in which they will tell the world what Germany expects to do within and without her boundaries, now that peace is here.  
It is believed these speeches will carry some appeal to America, although there is a disposition in some quarters to warn the government against the danger of a "one sided" foreign policy.  
Instead, it is urged Germany should adopt a policy seeking to restore friendly relations with all nations.  
Both speakers are expected to reiterate their solemn assurances of the past that the new Germany intends to adhere fully to the peace treaty. The trend of recent thought within Germany, however, makes it appear likely there will be some hints asking Germany's early admittance to the League of Nations. Renewed suggestions also are expected with an aim of obtaining further alterations in the peace terms.

D. 1919, in the matter of the estate of Austin R. W. Sperry, deceased, the undersigned administrator will sell at private sale, to the highest bidder for cash, lawful money, the real estate of said deceased, and in and to all that certain real property situated in the County of Orange, State of California, and described as follows, to-wit:  
An undivided one-half (1/2) interest of, in and to the Southeastly half of the Northeastly half of Lot 46 in Block 11 of Irvine's Subdivision of the Santa Ana Ranch, as per map recorded in Book 1, page 85 of Miscellaneous Records Maps, Records of Orange County, California.  
SUBJECT TO EASEMENTS FOR ROAD PURPOSES over the Northeastly 33 feet and the Southeastly 33 feet, as shown upon the map recorded in Book 5, page 7 of Miscellaneous Records of Los Angeles County, California.  
Offers or bids in writing for said real estate in one parcel will be received by said administrator at the office of R. C. Minor and Carr & Kennedy, Attorneys for Administrator, at 12 and 14 in the Bank of Italy building, No. 9-11 North Union street, in the City of Stockton, County of San Joaquin, State of California, at any time after the first publication of this notice and before the making of the sale of said real estate. Terms and Conditions of Sale: Cash, in lawful money of the United States of America; ten per cent of bid payable at the time of sale, the balance upon confirmation of such sale by said Superior R. C. MINOR and CARR & KENNEDY, Attorneys for Administrator.

**YANKS DUPE ITALIANS  
ON RAILWAY TICKETS**  
PASADENA, Cal., July 21.—Unsuspecting conductors on railroad lines in Italy, unable to read English, were duped by American soldiers in the balance service in Italy according to a policeman in Italy recently returned from overseas.  
Profit-sharing coupons on the reverse side of gum wrappers bear some resemblance to the railroad tickets used in that country. Needless to say these coupons frequently passed into the railroad companies' coffers.  
The very fact that we were warned against entangling alliances would indicate that some alliances are not entangling, and therefore not undesirable.

## Thompson Makes Good Record In Games at Paris

**Southland's Athletic Yank  
Chaplain Shows Well In  
Preliminaries**  
Southern California's peerless athlete, Fred C. Thompson, chaplain with the Yanks in France, is attracting considerable attention in Paris at present where he is entered in the Inter-Ally games at Pershing Stadium.  
Thompson, who is well known throughout the Southland for his prowess on field and track, has shown brilliantly in the Paris preliminaries and is expected to win many points for the Americans in the great world contest.  
Thompson holds the American All-Around championship of 1910, 1911 and 1912, with a record of 7499 points.  
**SOUTHERN CALIFORNIA**  
SANTA BARBARA, July 21.—Dr. and Mrs. Philip S. Chancellor, society people here, are being used by their former valet and parlor maid, Mr. and Mrs. John Ellis, now in Los Angeles, for \$2500.35 damages. The valet and maid claim that the doctor and his wife hired them for a year and fired them in a month.  
VENICE, July 21.—The Pacific Electric Railway Company has declared itself positively against the proposal of Santa Monica and Venice to construct a boulevard within the territory in which the street car company has its franchise.  
SAN DIEGO, July 21.—Under the auspices of the San Diego County Fair Bureau a county fair will be held in the old exposition grounds the last week of September. Three of the larger buildings will house the exhibits and the tractor shed will be used for displaying livestock.  
LOS ANGELES, July 21.—Four dollars is entirely too much for a woman to pay for a hgt, according to Charles Goodman, employee of a Los Angeles telephone company. But evidently it did not coincide with the ideas of Judge Willis, for yesterday he granted a divorce to Mrs. Rose Goodman. In addition, \$20 monthly alimony for two years was allowed Mrs. Goodman.

## FIRST OF "FIGHTING FIFTH" MEN ARRIVE

**PRAGUE PEOPLE WANT  
TEACHERS OF ENGLISH**  
PRAGUE, CZECHO-SLOVAKIA, July 21.—Teachers of English are wanted in Prague and wanted badly. You can't get an English lesson at any price in Prague, unless you were one of the first to decide you wanted to learn English and signed up ahead of time.  
A wave of learning English has swept over Bohemia. Everybody wants to do it, or else learn "American," as the language is often called, thanks to President Wilson.  
Formerly the Czechoslovaks had to learn German as the official language. Now everyone wants to know English.  
That row at Fiume will be interpreted in Berlin as the first evidence of a reasonable hope that the indemnity may be dodged.  
To pledge our help to France in case she is attacked doesn't mean that we shall help her. It means that she won't be attacked.  
The very fact that we were warned against entangling alliances would indicate that some alliances are not entangling, and therefore not undesirable.

# MAKING MORE OIL IN SOUTH THAN EVER BEFORE

Daily Production Has Been Climbing Steadily in Local Fields

FULLERTON, July 21.—Southern California is now making more oil than ever before, and the outlook for further increases is exceedingly good. The daily production of the local fields has been climbing steadily since the beginning of the year, and the latest estimates show the daily output to be 80,000 barrels. Three wells are largely responsible for the big increase. The Standard's Temple No. 9 making some 6000 barrels. Baldwin No. 23 doing 4500 and the Union's Champion hitting the 4000 gait did the trick. A year ago the field was making 71,000 barrels. The gain of 9000 barrels speaks well for the success in bringing in new wells and for the remarkable manner in which all the old wells have held up on their output.

After drilling through 400 feet of good oil sand and getting very substantial showings of oil with lots of gas the West Coast Oil company is ready to bring in its No. 63. The well is 3250 feet deep and looks good for 250 barrels. No. 61 is making 1500. Nos. 62 and 73 are new locations on which rigs are building.

The Amalgamated Oil company's Yorba No. 1 at 2080 is showing oil and gas in very encouraging quantities and should be one of the field's next producers. The strike corresponds closely to the first oil found in the Chapman well and this fact makes the drilling on the well interesting.

At 4000 feet the Amalgamated is changing from the rotary to the cable tools on the Potter well. At this depth the 12 1/2 is being set. It is thought that most of the hard stuff has been drilled through here and that the change to the cable tools will allow a closer watch on the formation changes.

Conglomerate of the hardest sort is the formation that Petroleum Midway is drilling to get through on the three wells drilling on the Yarnell property at Richfield. At Yarnell No. 1 fifty feet of hole was made, bringing the depth down to 1665 feet. No. 2 was especially hard and tough, 10 feet being the amount of new hole made here in a week. At No. 3 the drilling was somewhat easier as 40 feet were cut. Yarnell No. 4 is standing rigged up ready awaiting the outcome of the other wells drilling.

The drilling in the hard conglomerate at 1400 feet the Clark Oil company met with a twist off that left many feet of pipe in the hole. Washing over and cutting off has removed 200 feet of the pipe. Washing over the remainder is going nicely and the management hopes to get all the pipe out and be drilling again before the end of the week. This is the first serious fighting job the Clark company has had.

Before actually starting the work of drilling deeper on its Travis No. 1 the Fullerton Oil company made a second pumping test of the well in the hope that it would produce at 2650 feet. The well mudded up and only made a few barrels of oil. Preparations are now going ahead to deepen the well. This well proved a great disappointment in that it showed up so strongly before the test, and proves once more that the oil man is not sure of a well until the well is pumping and the oil actually going into the tanks.

At Yorba 2-1 the General Petroleum made 70 feet of hole last week and the present depth of 2820 shows shale. At Strains No. 1 some 400 feet of hole was made in the conglomerate. This is unusually good time for the hard formation drilled through. The last time is made by changing the rotary bits every hour and using nothing but sharp fish-tails all the time.

The Santa Ana Canyon Oil company spudded in on Crowther No. 1 Wednesday and met with hard luck on the very start. When the drill reached 200 feet a heaving sand was struck that stopped all further progress on the well. Mud will have to be put in and the side walls plastered up before the drilling can go ahead. Richfield presents both extremes of hard drilling, first it is too soft and next the formation gets so hard that it is almost impossible to make any hole.

The Standard's deep test well on the Anaheim Union lease at Yorba Linda is now 4190 feet, the formation continues to be hard sand with no oil showings of any consequence. The well is beginning to look rather doubtful and disqualifying to the Lock property.

Compelled to leave three strands of a twist off a week ago, the Standard is drilling by the pipe at Kramer 2-1 at a depth of 2670 feet. Sixty feet more and the new hole will be in.

## ModernAutoPaintShop

401 W. 5th—Cor. Birch

The home of quick service. All autos painted in 4 to 6 days. The shop with the big oven where the car is run in and each coat baked thoroughly. All work guaranteed. Popular prices. Have your car painted here and save half.

# WHITAKER SAYS ENLARGE CITY LIMITS

Advocates Anaheim Increasing Territory Before Next U. S. Census

ANAHEIM, July 21.—Anaheim should begin to think of extending the city limits, says Secretary J. H. Whitaker of the Board of Trade.

"Next year there will be a federal census and it is important that the city be awarded the showing to which it is entitled. The territory surrounding and adjacent to Anaheim should be included in a census of the city," says the booster secretary.

"Fullerton already is casting eyes at the very desirable territory lying between the two cities. Anaheim should extend its limits in that direction at least to Orangefield and why not to the Fullerton limits?"

"The Garden Grove road on the west and Placentia avenue on the east are logical confines of the city in these two directions.

"The need of making these extensions is being demonstrated more definitely all the time, with applications at practically every meeting of the city council for water, light and power to residences outside the corporation lines.

"I believe a majority of the residences outside would be glad to see the movement undertaken with the improvements, including fire protection, which would be made possible.

"Anaheim is going to grow rapidly and we're going to have a big city here before we know it. I verily believe that Anaheim is destined to become the largest city in the county.

"It certainly has the best location and the most progressive business men."

## SHIP MEN PLAN COAST WORKING AGREEMENT

SAN FRANCISCO, July 21.—Meeting at the Palace Hotel here today, shipyard employers and shipyard workers will endeavor to establish a coast wide working agreement. Workers and employers, through representatives, are meeting to promote further harmony in the shipyard industry, which industry has been seriously threatened on the coast because of strikes.

The workers ask a basic wage of \$1 an hour to supplant the terms of \$6.40 a day as awarded by the Macy agreement.

Nine international labor officials will act in advisory capacity to both sides and underwrite the final agreements.

Newport Hotel, on ocean front.

Considerable interest in manifested in oil in the Kramer district, San Bernardino county. Some new wells have been opened in that section recently.

MODJESKA'S HOME  
The Place to Rest  
Room and Board, \$3.00.  
Housekeeping Bungalows.

the making again. Kramer 2-2 shows 2430 feet of hole, the formation being a hard sand.

Reports filed with the State Mining Bureau during the week ending July 12, show 13 new wells, making 234 since Jan. 1. Thirty were reported ready for test of shut-off; 11 re-drilling or deepening; three abandonments.

# SOUTHERN CALIFORNIA

HERMOSA BEACH, July 21.—Hermosa Beach is to have an open air salt water plunge, it plans of the Chamber of Commerce nature. The plan is to make a cement plunge, using concrete pontoons for the purpose and inclose the salt water to form a still water pool where non-swimmers may disport themselves in the salt water with perfect safety.

VENTURA, July 21.—The setting of the walnut crop here this season promises to exceed that of last year by 29 per cent. The volume of the 1918 walnut crop, the largest ever harvested in this county, was 100 per cent, the product uniformly excellent. It has been most gratifying to the orchardist. The 14,774 acres of walnut trees in this county will be responsible this season for a considerable proportion of the 95 per cent walnut crop production included in the four banner counties of this State.

POMONA, July 21.—With 1,300,000 pounds of apricots canned in the two big canneries in this city during last week, Pomona shattered all her former records in this line. The total pay roll reached \$12,000 for the six days and nearly 700 people were employed. This has been the banner week of the season and from now on the amount of apricot canning will steadily decrease.

LONG BEACH, July 21.—The first arrests for drunkenness since the wartime prohibition act went into effect were made here yesterday. Beth Lawson and William Munro were charged with intoxication and placed in the city jail. When searched the officers are said to have found some empty and some full bottles of Jamaica ginger, besides bay rum of high alcoholic content on the men. Arthur Ellis was also arrested for alleged intoxication, charged with having a fondness for denatured alcohol containing a solution of formaldehyde.

LANCASTER, July 21.—The largest badger ever killed in Antelope Valley, according to several old-timers, was brought into town yesterday. The animal was killed Saturday by Arthur McDougall of this place near Neenah, under a large sage brush. The badger tipped the scales at 18 pounds. Some of the older residents of Antelope Valley were of the impression that the badger was extinct.

PASADENA, July 21.—The dish towel, familiar terror of henpecked husbands, is to go into the discard. Scientific authority for its abandonment is found in the statement of the Employment Bureau of the Pasadena Y. W. C. A., which has been busy for six months training "house assistants." "Dishes should never be dried with a dish towel but always spadded and allowed to dry without a streak."

VENICE, July 21.—Bathing at the foot of Waverest avenue, yesterday afternoon, Mrs. H. E. Smith of San Francisco was knocked down by a huge breaker and carried out to sea. Lifeguard Townsend rescued her after a battle which was watched by hundreds on the beach and many bathers.

# ORANGE GROWERS APPROVE LAND PURCHASE

Santiago Orange Growers' Association Supports Capital Increase Supply Co.

ORANGE, July 21.—Stockholders of the Santiago Orange Growers' Association held a meeting at Campbell's hall Saturday afternoon for the consideration of the proposal for the purchase of 41,000 acres of timber land in Lassen county, and the increasing of the capital stock of the supply company of this exchange to \$4,000,000.

A talk by Mr. Barnes, secretary of the supply company, demonstrated the desirability of protecting the growers' interests, through making provision for box material. When a vote was taken, the project was given unanimous approval of the stockholders.

Work has been started on the McInnes Fruit Company's new house. The site, 78 1/2 by 150 feet, adjoins the company's present building on the south side. The cost will be about \$7500.

It will be of frame construction, consisting of a packing room, lemon storage room and large porch.

Mr. McInnes has been operating the old concrete house at McPherson as a lemon house, but the new structure will be much more conveniently situated as well as affording more room for storage and packing.

This growth is accounted for by the growers' appreciation of spot cash payments for their fruit.

A delightful surprise shower was given in honor of Miss Carrie Bowen at her home on East Maple street by the girls of the Arrowhead Club, of which Miss Bowen has been for some time a member.

Miss Bowen is soon to become the bride of W. A. Scott Thompson of Los Angeles, who is employed with the S. A. B. Supply Company.

The evening was enjoyably spent with games and music as the chief diversions. Late in the evening the party gathered around a charmingly appointed table, upon which had been placed a large white wedding cake adorned with a small doll dressed as a bride, where refreshments, consisting of white brick ice cream decorated with pink hearts, were served.

Those present were the Misses Della Hahn, Goldie Norden, Marguerite Condon, Teatha Connor, Ruby Winterrowd, Lena Freeman, Mabel Reeves, Alice Carlson, Ivo Reeves, Frances Reeves, Mesdames Helen Jackson, Pearl Williams of Santa Ana, Ellen Fullerton, George Campbell, A. Richards, Charles Carlson, Mary Reeves and Frank Bowen.

Word has just been received here of the death of Mrs. George Lancaster of San Francisco, daughter of Mr. and Mrs. Francis E. Crawford of El Modena. Mrs. Lancaster has been a sufferer from heart failure for some years and recently has been in very frail health which culminated in her death.

Mr. and Mrs. Walter Guthrie and Miss May Lea Guthrie of Wichita Falls, Texas, and Percy Blackburn of Corsicana, Texas, have arrived here to visit Mr. Guthrie's mother and sister, Mrs. E. L. and Miss Margaret Guthrie of North Orange. They made the trip by motor.

Miss Olive Hibbs, daughter of Mr. and Mrs. A. E. Hibbs of East Palmyra avenue, was severely burned about the face and arms by the explosion of the oven in a gas range.

Mrs. Clate Stanfield has been brought home from the Santa Ana hospital, where she has been since her recent accident. She is improving slowly.

Ed Pister, while assisting Harvey Garber to tear down a school building, fell about seven feet.

# NEW LAWS WILL BE IN EFFECT TOMORROW

Among Amendments Are Many That Are of Interest to Farmer

(Continued from Page Nine)  
kinds and conditions of labor of children; the law re-creating the real estate commission, which provides for the regulation, licensing and supervision of real estate brokers, agents, salesmen and solicitors; an act prohibiting indecent and fraudulent advertising, and a law fixing a standard for the state of commercial feeding stuffs.

Department of Agriculture  
Another important law is that creating the department of agriculture. Under the provisions of this law ten departments and commissions will be consolidated under one directing head, but the functions of these departments will be continued. The object of the consolidation is to effect economy and produce greater efficiency.

Other important laws to become effective on July 22nd are:  
Providing for establishment of a home for delinquent women.

Regulating the manufacture or sale of imitation milk or milk products. Regulating the packing and marketing of apples.

Amendments to injunction provisions of code to prevent moving picture stars from jumping contracts.

Amendments to direct primary law to prevent a recurrence of mixup which followed primary election in 1918.

Acts adding to the power of the insurance commissioner and amendments to general insurance laws.

Prohibiting banks from acting as insurance agents.

Establishing bureau of child hygiene.

Providing for the examination of applicants for admission to the bar by three attorneys appointed by the supreme court.

Compelling the attendance at school for at least four hours each week of all persons between the ages of 14 and 18 years, and requiring the attendance at night school of persons between the ages of 18 and 21, who cannot speak, read or write English language to a degree of proficiency equal to that required for completion of the sixth grade.

Requiring the registration of minors to find those who do not attend school.

The senate is convinced that the President isn't the whole country. The next thing it needs to learn is that the senate isn't the whole country.

# OWN YOUR OWN HOME

Idle money is just as injurious to a community as idle labor or idle land. The best interests of a community demand that the different factors of civilization should function for the common benefit and not lie dormant. A few days ago a citizen brought into our office for investment a large sack of gold which had been hidden in a safety deposit box since the commencement of the war. It is a matter of interest when you place a Liberty Bond or an Investment Note in a safety deposit box. It is a matter of no interest even to yourself to put your money in a deposit box. Do not do things that are not interesting.
